COLLINS Faultless Five ROSES

Pick regular hot-house roses, of the finest varieties, from your own garden.
See the picture in natural colors, on the front cover. All five are monthly roses.
Tremendous bloomers. A gorgeous display from Spring till frost.

1. COLUMBIA. The newest big pink rose.
   ("This single rose retails at local stores at the Collins’ price of the whole five," writes one New York customer.)

2. GOLDEN OPHELIA. Big, brilliant flowers, similar in form to those of the famous original Ophelia, but with a gorgeous golden yellow suffusing its delicate salmon pink.
   ("This bush had seventeen buds and blooms on at one time; all my neighbors admired it," writes a customer in New Jersey.)

3. PREMIER. The most fragrant pink rose, big thornless stems.

4. DOUBLE WHITE KILLARNEY. Perfect buds of ivory white.
   Picture on front cover shows remarkable grace when opening.

5. AMERICAN LEGION. The choice, fragrant new red rose.
   Beautiful deep cerise flowers, on long stems.
Every plant has already bloomed. All guaranteed to grow and bloom for you, or your money back. Safe delivery guaranteed.

5 Big, Thrifty Rose Bushes
   Strong-rooted, 2- or 3-year old
   Nearly 2 ft. high
   All five, Postpaid
   $1.95

6 Collections

30 Bushes

Postpaid $10.00

Hundreds of our customers have written very gratifying letters to us telling of the splendid blooms they have cut from their bushes last year, from a few weeks after planting until a killing frost (November 15, 1923). These roses bloom right through the dry, hot summer months, and abundantly in the fall. If your garden space is limited, plant Roses for a wealth of superb bloom.

COLLINS $60 PRIZE CONTEST

Last year we offered $60 in prizes for a name for our wonderful collection of five roses at $1.95. Mrs. B. B. Oliver, Wallowa, Oregon, won first prize with the title "Collins Faultless Five," which we are now using. (Read her letter, page 49.)

This year we are offering the following cash prizes:
First Prize $25.00  Second Prize $10.00  Third Prize $5.00

All you need do is supply the appropriate fifth line for the following limerick. It’s easy, try your hand at it today—add a line that rhymes with mail.

We are “Five Faultless Roses,” by mail.
All through summer we bloom without fail.
Strong and sturdy are we,
With a real guarantee
(Fill in your own line here.)

Send in your idea, submit as many suggestions as you desire Write them on a sheet separate from all other correspondence—sign your name and address.

12 Additional Prizes
To those submitting the twelve next best lines we shall refund the full purchase price of the Rose Collection ($1.95) when other prizes are awarded.

Contest closes June 30, 1924—awards made early in July; winners announced publicly in our next catalog or Fall folder. (All suggestions received become our property exclusively and are filed for the attention of the contest judges).
We deliver and plant your orders at all nearby points

The COLLINS Planting Guide for 1924

In this Guide we offer for your selection the most satisfactory, good old stand-by varieties of fruits and berries for your garden, and shade trees, evergreens, roses and flowers for your lawn.

Do not postpone planting another year; it is so easy to order the things and plant them right now and it will not be long before they will bear for you an abundance of fresh fruit and luscious berries; roses in a wealth of color and a gay show of flowers the first season after planting.

Our beautiful Evergreens add to your house an immediate richness brightening up the barest corners and making them glow with color.

It is our aim to furnish you all these plants in "the pink of condition," fine-rooted and well-packed, they will all be carefully labeled and the few points you should observe in planting will be clearly set forth when we acknowledge your order.

Our Landscape Department will work overtime to draw a practical plan of your property, showing where the evergreens, shade trees and flowers ought to be placed. This Department will furnish you with a list of the proper plants for the various locations and will tell you what these plants cost. There is absolutely no charge for this service, we are glad to do it, simply send us a rough sketch of your ideas—we shall work them up for you.

Yours for better results,

Arthur J. Collins & Son

A CORDIAL INVITATION

is hereby extended to you to come to our 400 acres of Nurseries and Orchards—see the plants and see how we pack and ship them. See how we grow our plants, a few of the items are 50,000 Barberry Plants, 250,000 Privet Plants, half a million Asparagus Roots, and nearly a million Strawberry Plants, etc. And if you want a thrill see our Nursery of Evergreens which is the pride of our property.

Moorestown is 9 miles east of Camden on the road to Barnegat, accessible by Penna. Railroad, by trolley and by excellent auto highways. The Nurseries are on Pleasant Valley Avenue—a short walk from the trolley. Our sign points the way.
COLLINS HYBRID
TEA ROSES

In this list of Hybrid Tea Roses you will find the best varieties of roses that will bloom through the summer and fall and that are best adapted to the rose garden, whether they are planted next to the wall of a tiny home or in the large garden of a huge estate. Collins roses are grown full of life, and produce abundantly the first season and for many years thereafter.

All roses two years old, well established in pots, delivered with the earth undisturbed.

"They Bloom All Summer and Fall"

**ADMARIAL WARD.** Large, globe-shaped flowers of crimson red, shaded with fiery red. A vigorous grower with strong, green foliage.

**CAROLINE TESTOUT.** A beautiful rose with large full flowers of clear rich pink, delicately edged with silvery rose. Very fragrant. Produces blooms very freely.

**COLUMBIA.** (See color illustration, front cover). A splendid full double rose of very lasting qualities. A strong grower, almost thornless, with brilliant rose-pink flowers. Delightfully fragrant. $1.50 each.

**CONSTANCE.** A very, free flowering variety, which produces exquisite orange-yellow buds, long and of perfect form, opening into golden yellow blooms.

**DUCHESS OF WELLINGTON.** Delightfully fragrant, free flowering rose, with large, thick petals, making them last longer when cut. The flowers are intense saffron and yellow, opening to deep copper-saffron yellow flowers. A charming variety.

**EDGAR M. BURNETT.** Large, flesh colored petals, tinted rose and exquisitely sweet scented. The flowers are all well formed, very large and full.

**FLORENCE PEMBERTON.** This is a very free flowering rose, creamy white, suffused with clear pink and a well-formed flower with a high, pointed center and deep petal. Fine bedding rose.
FRAGRANT BOUQUET. Delicate flesh-pink flowers, with the base of the petals light gold, opening into full flowers, remarkably fragrant.

GENERAL MACARTHUR. Intensely glowing crimson scarlet, highly scented and a very prolific bloomer. One of the best of bedding roses. Well known.

GORGEOUS. Amber-yellow with red-coppery veins. Striking and novel. The bush is vigorous and strong.

GRANGE COLOMB. This is a strong, vigorous growing bush and a splendid bedding rose. Ivory white with salmon-yellow center. As the flowers open they change to a pure white.

*GRUSS AN TEPLITZ. Rich, scarlet flowers, blending velvety crimson, set off by beautiful green foliage. Long, stiff stems, making it valuable for cutting. Very fragrant. A strong grower and in bloom all the time.

HADLEY. One of the very finest bedding roses, with its rich, velvety crimson flowers, intensely fragrant and producing very freely. Blooms continue throughout the season.

*HOOSIER BEAUTY. This is a valuable rose for cutting as the flowers are firm and last a long time. Its exquisite long buds are beautifully formed and its large, full flowers of intense dazzling crimson-scarlet are deliciously fragrant.

H. V. MACHIN. An intense dark, almost black, scarlet-crimson rose of vigorous and sturdy habit, a splendid variety for cutting, lasting a long while with its long, stiff stems and beautiful foliage.

IRISH FIREFLAME. A wonderful, single flowering variety. Produces in clusters of 5 or more and very popular for cutting in bud form. The buds are all rich deep orange and crimson and very rich, opening into large flowers of velvety old gold and yellow.

JONKHEER J. L. MOCK. These very large, perfectly formed blooms are highly scented and the blooms are produced in great profusion on strong, stiff stems. The flowers are deep, imperial pink on the inside and rich carmine and silvery-rose white on the outside.

*Kaiserin Augusta Victoria. A superb rose in every way. The handsome, long, pointed buds open up into blooms of the purest snow-white you have ever seen. Beautifully formed roses produced on long, graceful stems and the bush is a strong, free, healthy grower.

*KILLARNEY. This is the best known of the famous Irish Hybrid Tea Roses and is one of our most popular garden varieties. The buds are large, long and pointed with the petals deep and of great substance. Ideal for cutting and one that will produce you almost continuous bloom. A whole bed of these charming roses with their sparkling, brilliant pink blooms, is a gorgeous sight.

PLEASE NOTE

We shall see to it that all rose bushes are sent out at the proper time in the spring and if your bushes do not reach you quite as promptly as you expected after ordering, please remember that we have thousands of orders to fill and that we will not start to send them out until the weather is mild and, in our estimation, best suited for these valuable plants. You will greatly oblige us by not writing "hurry-up" letters. Leave the matter in our hands, we are experienced and will give you service.
**Killarney Brilliant.** Very similar to the Killarney, but of much brighter and more brilliant coloring and somewhat larger with a rich, glowing shade of carmine.

**Lady Alice Stanley.** A beautiful shade of coral rose with the inside of the petals shading to a flesh-pink. Very vigorous and healthy grower. Flowers immense and full.

**Lady Pirrie.** Beautiful salmon-pink shaded with red and copper. A very charming rose. The inside of the petals are apricot and fawn.

**Lady Ursula.** A very vigorous and erect grower of exceedingly, free blooming habit, producing abundance of delicate, flesh-tinted flowers of high center and perfect form, distinct, and delicately tea-scented.

**Laurent Carle.** Brilliant, velvety carmine flowers, produced in profusion throughout the season, deliciously sweet-scented. A vigorous grower, blooming right through the hot weather when most flowers are scarce.

**Los Angeles.** This is one of the finest varieties ever produced. It is luminous, flame-pink, toned with coral and shaded with translucent gold at the base of the petals. It is very vigorous and the buds are long and pointed, excellent for cutting, expanding into huge flowers of mammoth proportions. An entire bed of this wonderful rose is not too much to have.

**Mme. Edmond Rostand.** This is a great favorite, of vigorous growth and pleasing color, a delicate flesh-rose shade with salmon, with orange-yellow centers, making a most exquisite flower which opens into large, globular, quite double form.

**Mme. Jules Bouche.** Nearly a pure white, slightly tinted with blush on the reverse of the petals, but considered one of the best white bedding roses, being quite double and exquisite in bud form, as well as when fully opened. A strong grower and a continuous bloomer.

**Mme. Leon Pain.** Distinct silvery-salmon with orange-yellow center, while the reverse of the petals shades to pink. A splendid bedding variety with its large, full flowers which are produced abundantly.

**Gentlemen:**

June 12, 1923.

The roses are most wonderful. After planted three weeks they are covered with buds. Mme. Caroline Testout has had four large meat perfect flowers and buds on every branch. I am extremely pleased.

(Mrs.) M. U., Richmond Hill, L. I.

**Gentlemen:**

Sept. 26, 1923.

The roses I bought from you this summer bloomed all summer and were beautiful.

W. J. S., Somers Point, N. J.
MME. SEGOND WEBER. A vigorous, free-flowering bush, producing perfectly formed, cup-shaped flowers of surpassing beauty, exceedingly fragrant and of an appealing soft toned color of salmon-pink.

MME. MELANIE SOUPERT. An extra large bloomer, globular and of a charming pale tint of salmon-yellow, suffused with carmine and pink, especially fine in bud form.

MISS LOLITA ARMOUR. Quite recently introduced, but already very popular as a plant, is a strong, vigorous grower and produces abundant blooms throughout the summer. The flowers are quite double, large sized and of a very unique coloring, difficult to describe. As they expand they develop into a deep carmine-red with a gold, coppery-red suffusion. The base of the petals are a rich, golden yellow, with a coppery-red sheen. (Winner of the International Bagatelle Gold Medal Prize, Paris, 1921). $1.50 each.

MRS. AARON WARD. Very abundant producer of charming, attractive full double roses of distinct Indian yellow centers, shading light toward the edges. When first transplanted, the flowers are apt to be nearly white. The foliage is a rich, bronzy green and the bush is probably the most abundant producer of blooms of all the yellow Hybrid Tea Roses.

MRS. ARTHUR WADDELL. A very handsome, free-flowering rose, especially alluring in the half-expanded form, with its soft, rosy-salmon, suffused with a golden sheen. Very attractive and desirable.

MRS. H. R. DARLINGTON. Quite new and proving most attractive as a garden rose with its strong, vigorous, free-flowering habits. The large, marvellous shape and form of creamy-yellow flowers are highly scented and the petals are deep and large.

MRS. CHARLES RUSSELL. These roses are very double and large, globular and well-formed. A pleasing, rosy-carmine with a scarlet center. Has fine foliage and flowers very freely. Very striking as cut flowers or in the garden.

MRS. FRANKLIN DENNISON. Becoming a very popular rose with its large full, well-formed flowers of shining white with a sheen of primrose yellow, which deepens to ochre at the base of the petals. Quite vigorous and blooms abundantly.

MRS. WAKEFIELD CHRISTIE-MILLER. These large sized flowers last a long while on the bushes and are produced in abundance, a favorite among the pink bedding roses with its bright pink color shaded with lighter pink.

*OPHELIA. A wonderful rose and ranking among the very best, admired by all who know it. Blooms appear from spring until frost on long, stiff stems, the flowers are of perfect form and of good size and of the most pleasing, delicate tint of salmon-flesh shaded with rose which makes the flowers peculiarly rich and enticing.

PADRE. New, strong grower and abundant producer of attractive flowers borne on long stems. The deep petals are of a coppery-scarlet coloring flesh with yellow at the base. Very rich. $1.50 each.

For success with roses, use Collins Pleasant Valley Plant Food. See page 46.
PHARISAER. This is a fine garden rose which blooms very freely, producing long, white buds that open into rosy-white flowers with just a touch of soft salmon, the blooms are large and quite double.

*RADIANCE. This is an ideal bedding rose bearing its flowers on long, strong stems, making it ideal for cutting. It blooms abundantly in June and continues to produce large flowers throughout the summer and fall, a brilliant, carmine-pink with salmon and lovely opaline tints, wonderful when expanded.

RED RADIANCE. An abundant producer as is Radiance and in color a clear cerise-red, very bright and not fading.

*ROSE MARIE. An exceedingly fine bedding rose, producing quantities of large, beautifully formed flowers, which are exquisite in bud form, long and pointed. A most pleasing, clear rosy-pink.

WILLOWMERE. This is a splendid rose, both in the bud and in the open flower with shades of coral-red and carmine, opening into rich pink with yellow center and flushed carmine at the edges of the petals. Large, full, handsome blooms.

Prices of the above roses, except where noted, are each $1.10; per doz., $12.00; per hundred, $90.00.

Special Offer Collins Rose Garden Dozen Collection

We offer you the above twelve Everblooming Roses marked with a star thus (*), as a model rose-garden collection. This comprises the varieties best adapted to varying climatic conditions and those best suited to the amateur as well as the professional rose lover and grower. We offer you this model collection in the 2 year size, $12.00, extra strong potted plants.

Collins Hybrid Perpetual Roses
Best Hardy Favorites

GENERAL JACQUEMINOT. (General Jack). These brilliant, scarlet crimson flowers are borne in profusion and succeed everywhere. An old favorite for many years, tried and true.

FRAU KARL DRUSCHKI, or White American Beauty. Undoubtedly the best white rose in existence, superb in every way, pure white in color, perfect in form, the perfect double flowers measuring 4 to 5 inches across. The long pointed buds are immense, very abundant bloomer and hardy wherever roses grow.

PAUL NEYRON. Beautiful, clear pink, huge flowers measuring 5 to 6 inches across. Magnificent.

MAGNA CHARTA. A beautiful, bright pink, suffused with carmine. A bright, strong and vigorous grower, among the best.

Collins offer of these sturdy, hardy rose bushes, which are hardy anywhere in the U. S., extra strong, 2 year plants $3.90 for the above four; each $1.00; per doz., $12.00; per hundred $90.00.

ROSA HUGONIS. A RARE NEW ROSE

This is a fine new species of rose, introduced from China and is of shrub-like habits of growth and form, very symmetrical, size about 6 feet high and wide. Fine for cemetery plantings, for hedges and any shrubbery plantings. It has been known to bloom during a snow-storm and the entire plant is covered with bright, sunshiny yellow blooms and buds, making a wonderful early spring display. The color is intense canary-yellow, very bright and attractive. In the fall red scarlet berries are formed which remain on all winter. Perfectly hardy. Each $2.00; per doz., $20.00.
Collins Best Climbing Roses

COLLINS CLIMBING AMERICAN BEAUTY ROSE. A cross between American Beauty and an unnamed seedling. Color rosy crimson, almost identical with the American Beauty. It has an exquisite fragrance, a quality rarely found in climbing roses. Collins Climbing American Beauty has a strong habit of growth. Will thrive and bloom in almost any situation where a climbing rose is desired. Flowers 3 to 4 inches in diameter, finely formed on long stems, are produced in great profusion. Comes into flower the latter part of May and continues in full flower for weeks.

SILVER MOON. This is the grandest, white climbing rose, different from all other roses with its beautiful semi-double flowers 4½ inches or more in diameter, petals are of great substance and beautifully formed, expanding attractively.

PAUL'S SCARLET CLIMBER. This is a fine, new climbing rose of vivid scarlet shade with bright crimson flowers. The brightest, red, hardy climbing rose in existence and no doubt the most brilliant addition to roses in many years.

They are produced freely in clusters of from 3 to 20 flowers each on large branched canes and the bushes are clothed with vivid coloring from top to bottom.

GARDENIA. The flowers, borne very profusely in June and July are deep, rich, golden-yellow in bud form opening into double flowers of cream which fold up at evening. The bush is a strong, hardy grower as tough as an oak. Flowers are large and fine for cutting. Among the best of all of the climbing yellow kinds.

SPECIAL OFFER: One each of the above, making four roses in all, for $3.90; each $1.00; per doz., $11.00; per hundred $90.00.

AMERICAN PILLAR. Grand new climbing rose. Tremendous grower with vigorous canes and glossy dark green leaves. Flowers rosy pink to brilliant carmine with beautiful golden yellow stamens, blossoms arranged in layers four to six deep. Often 3,000 flowers on a young bush!

DR. W. VAN FLEET. The flesh-pink Climbing Rose. Open flowers are 4 inches and over in diameter, with high built center and beautifully undulated and cupped petals. Delicate outer surface deepening to rosy flesh in the center. Full and double, delicately perfumed, buds painted, stems 12 to 18 inches long.

THOUSAND BEAUTIES. Imagine a luxuriant climbing rose literally covered with thousands of bright blossoms, borne in clusters and quite double. Colors of every imaginable shade from white to deep pink. A hardy, vigorous grower with few thorns and handsome foliage.

Prices for above three roses, each $1.00; per doz., $11.00.

COLLINS RAMBLER ROSES

Pink Dorothy Perkins. Grows 10 to 15 feet in a season. Flowers are perfectly double, with petals crinkled and color is a clear shell-pink.

White Dorothy. A pure white sport of the well-known Dorothy Perkins, of same habit of growth and freedom of flowering. A splendid companion for the pink variety.

Red Dorothy Perkins. The color is an intense clear carmine-lake, a rich contrast to Pink Dorothy Perkins. Flowers are large and double, produced 30 to 40 on a stem.

SPECIAL OFFER: One each of the above, three roses in all, 2-yr. size, $2.90; 3-yr. size, $3.50.

Quantity prices on application.
COLLINS NURSERIES, MOORESTOWN, N. J.

COLLINS PREFERRED PERENNIALS

Plants (unless otherwise noted) each 30 cts.; per doz., $3.00.

Note. We are able and glad to furnish any and all other PERENNIAL PLANTS not listed here (on account of lack of space) at current market prices. Write us for whatever you may need.

ANEMONE. Queen Charlotte. Blooms from August until frost, large semi-double pink flowers, beautiful in the fall.

Lilian Doty. Large pink, tall grower.

Miramar. A fine bronze.

Mrs. Chester Robinson. Large deep rose-pink, new.

Mrs. Harrison Craig. New, dwarf plant, flowers very attractive yellow, suffused with orange and crimson.

Mrs. H. F. Vincent. Charming combination of fawn and yellow, overlaid with orange-crimson, new.

Mrs. Nellie Kleris. Deep pink, fine new incurving type.

Nellie Blake. A good deep red, early-flowering.

Petite Louise. Aster flowered silvery pink.

Rose Travena. Large, deep rose button type.

Sidney Mitchell. Very distinct early orange-yellow button.

Utan. Pleasing rose, shading to white.

Wanda. Large, pure white.

White Doty. Pure white, globular aster form.

William Sobey. Very free-flowering bright yellow.

Zelia. Excellent orange-brown.

Price: 30 cts. each, $2.50 per doz. One of each of the 25, the entire color range, making in all 25 plants, $4.75.

DELPHINIUM. Belladonna Larkspur. Clear turquoise-blue flowers, from June to frost. New, very desirable. Price, 30 cts. each; $2.50 per doz.

Bleeding Heart. An old favorite with beautiful heart-shaped pink and white flowers. Blooms are borne all along the stem. Price each 75 cts.; per doz., $7.50.

COLLINS GARDEN CHRYSANTHEMUMS. Queen of all the fall flowers. Profuse to bloom, vivid and bright in their gay fall colors, just when other flowers have gone these look their best. We offer strong, vigorous young plants as follows:

Angelo. A beautiful new light pink.

Anna L. Moran. Very striking, brilliant flame-scarlet.

Edina. Rose pink, very pleasing.

Excelsior. Charming bright yellow.

Ferr Ridge. Very fine red, single.

Juliana. Fine yellow.
COLLINS SELECT HARDY PHLOX

The family of Phlox is perhaps the most widely known and cherished of all the plants of the perennial garden. Since Phlox is so satisfactory in every position and so effective it should be freely used in masses in the perennial bed or in shrubbery plantings. Every shoot of the plants is usually topped by a heavy pyramidal cluster.

Bacchante. Rose with carmine eye.
Champs Elysee. Lovely shade of intense rich purple-crimson.
Frederick Passy. Luminous light mauve-pink, with distinct white center.
Jeanne d'Arc. Fine late flowering pure-white.
La Vague. Pure mauve, with aniline red eye.
L'Esperance. Light lavender and pink, center white.
Louise Abemma. Quite dwarf. Large flower fine pure white.
Mrs. Jenkins. The best early white.
Professor Virchow. Bright carmine overlaid with orange-scarlet.
Rheinlander. A most beautiful salmon-pink, with flowers and trusses of immense size.
Rynstrom. Very excellent carmine-rose.
Widar. Distinct, reddish violet with a large white center intensifying the color.
Plant 3 each 30 cts.; per doz., $2.50.
FOXGLOVE. Digitalis. The bold pointed racemes of cone-shaped flowers are very pleasing and attractive; pink, purple and white. Price 30 cts. each; $2.50 per doz.

HIBISCUS. Var. Crimson Eye: a very showy plant, excellent for damp, wet ground, where other plants will not succeed, but does not require these conditions. Fine for massing in groups. Grows five feet, and blooms from July to September, huge white flowers with bright crimson center, single flowers are often 5 inches across. Price each, 50 cts.; per doz., $5.00.

SEDUM. Stone Crop. These plants are excellent for the rockery or border and fine for covering dry banks where little else will thrive. Its broad light green foliage and immense heads of showy rose-colored flowers make it indispensable as a late fall-blooming plant. Price each 30 cts.; $2.50 per doz.

COLLINS GRANDEST FRAGRANT PEONIES

Every gardener loves Peonies.
The stately beauty of the Peony blooms in all their wealth of color makes them indispensable for every garden. Some have the delicate scent of the rose, others are marvels of rich color.

Edulis Superba. Deep rose-pink with lighter shadings, one of the very earliest and best, nearly always ready by Decoration Day, 75 cts.
Festiva Maxima. This is said to be the very best and finest white Peony, pure snow-white with a flake of carmine in the center. 75 cts.
Rosea Plena Superba. Delicate pink and salmon, very full flower. 75 cts.
Fragrans. Solferino-red with slight silvery reflex, compact full flowers, extensively grown for cut-flowers. 75 cts.
Francois Ortegat. Semi-double purplish-crimson with brilliant golden-yellow anthers, very striking. 75 cts.
Couronne d'Or. Immense, very full, imbricated, ball-shaped blooms, pure snow-white with crimson blotches in center, very late. 90 cts.

Special Offer: One plant each of the above six leading varieties, making six in all, a beautiful collection. $3.85 postpaid.

Beautiful unnamed Double Peonies in mixture:
Each, 40 cents postpaid; 10 for $3.50 postpaid; by express, $30 per 100.

Phlox—massive heads, of brilliant colors

Festiva Maxima—Peonies
Very 3-yr., 3-yr., 3-yr., to pink abundant fragrant 4 or hedges. Well-formed waxy very masses. If deliciously July 5 Tree Bush desirable. Pleasing September 15, 2-yr., 90 cts.; 3-yr., $1.25. ALTHEA OR ROSE OF SHARON (Hibiscus Syriacus). Very symmetrical, well-formed bushes, attractive for their neat habit of growth, blooming profusely through July and August, with rose-like flowers. Extensively used for neat hedges. Double flowers in pink, white, red or blue; single flowers in white, red or pink. Bush Form. 2-yr., 90 cts.; 3-yr., $1.25. Tree Form. Graceful young trees very showy with their mass of red flowers. 4 to 5 ft., each $2.00. BUTTERFLY SHRUB OR SUMMER LILAC (Buddelia Veitchii.) Grows rapidly and produces masses of bloom the first season. The blooms first appear in July and are continuous until cut down by severe frosts. The flowers are a very pleasing shade of violet, and are borne in long, dense, cylindrical spikes. Very desirable. A fast grower. Because it is such a heavy producer of delightfully fragrant flower spikes it wins a place on every property. 2-yr., 90 cts.; 3-yr., $1.25. SWEET SHRUB OR STRAWBERRY SHRUB (Calycanthus floridus). Well known to everyone as an old-fashioned favorite, with its highly-scented deliciously fragrant dark crimson flowers. 2-yr., 90 cts.; 3-yr., $1.25. Deutzia (Deutzia) The Deutzias are all very attractive shrubs ranging in height from low to very tall varieties, all have an abundance of dainty flowers which cover their branches in the early summer. D. gracilis. Dwarf shrub covered with delicate white flowers. D. Pride of Rochester. Grows 4 to 6 feet high. Sturdy and upright, beautiful double flowers, pure white, blush tinged. D. crenata (flora plena). Double pink deutzia. A strong grower with flowers tinted rosy white. Prices of all Deutzias, 2-yr., 90 cts.; 3-yr., $1.25. Forsythia (Forsythia) The most striking shrubs in the early spring. They fairly glow under the wealth of rich yellow flowers that cover the whole bush. Prices of all Deutzias, 2-yr., 90 cts.; 3-yr., $1.25. F. Virvidissima. April. 5 to 6 feet. The many stems are loaded with golden yellow blooms before the leaves appear. F. suspensa. The branches hang downward on this bush and are heavily loaded with masses of blooms. Very graceful. Prices of all Forsythia, 2-yr., 90 cts.; 3-yr., $1.25.
Hydrangea (Hydrangea)

H. OTAKSA. The Famous Blue Hydrangea seen at the seashore resorts. The immense blue heads are very striking, well surrounded by a wealth of rich green foliage. A perfect setting. These plants do well in partly shaded positions. Very popular. Greatly used in landscape work for shady spots where nothing else will grow. They take away the bareness, and fill the space with long continued succession of bloom even the first season after planting. In full leaf on arrival. Strong plants, with ball of earth, $1.00; per doz., $10.00; special price per 100.

H. paniculata grandiflora. Large white-flowering Hydrangea, (see cut on page 10), undoubtedly the grandest and most beautiful of all the flowering shrubs. Forms great panicles or heads of white flowers changing to pink in the fall. This handsome shrub makes a striking show of bloom from August until frost. Lasts many weeks as cut flowers in the house.

*Bush form.* 2-yr., plants each 90 cts.; per doz., $9.00; 3-yr. plants each $1.25; per doz., $12.50.

*Tree form.* On upright trunks like small trees. Each $2.00; per doz., $20.00.

H. arborescens grandiflora. "Hills of Snow." Laden with flower clusters from June to September, grows 3 feet high. 2-yr., 90 cts.; 3-yr., $1.25.

HONEYSUCKLE BUSH (Lonicera fragrantissima). Grows 6 to 10 feet. The pinkish-white flowers in early spring are very fragrant and its dark green foliage is retained late into the winter. A very valuable shrub for dense, thick plantings. 2-yr., 90 cts.; 3-yr., $1.25.

Spireas (Spirea)

S. Anthony Watterer. The perpetual-blooming Red Spirea. A fine, hardy shrub that blooms all through the summer when other flowers are scarce. The large, flat clusters of rich, rosy-red flowers are produced the first season after planting and make an attractive showing up until late fall. Fine for single specimens or as a hedge. Grows 2 to 3 feet high.

S. Bridal Wreath. A very graceful shrub with upright branches and dark green shining foliage which changes to brilliant colors in the fall. In May the branches are covered with small double white flowers. One of the showiest of the Spireas.

S. Van Houtte. This spring shrub is an immense bloomer, producing pure snow-white flowers in plume-shaped clusters all over the plant in May and June. Very attractive as a hedge. Grows 5 to 6 feet high. (See illustration).

S. Thunbergii. A very graceful and popular Spirea with spreading branches and light green leaves that turn to orange-scarlet in late fall. Myriads of pure white flowers in April and May.

S. Billardi. This is a strong growing Spirea with attractive foliage and dense panicles of bright pink flowers in July and August. Occasionally it blooms through the fall, making a very handsome attractive shrub.

Prices of Spireas, 2-yr., 90 cts.; 3-yr., $1.25.

BLUE SPIREA (Caryopteris Masticanthus). Verbena Shrub. This is the finest blue-flowering shrub we have; makes neat, compact bushes 18 inches to 2 feet high; begins to bloom in August and continues loaded with lovely sky-blue flowers until frost. The foliage has a peculiar, spicy fragrance. Prices: 2-yr. size, 90 cts. each; 3-yr. size, $1.25 each.
MOORESTOWN in 3-yr. Op. N.  

BEAUTY FRUIT (Callicarpa punctata). A graceful shrub with long, slender branches, bearing small drooping flowers in August, followed by myriads of shiny violet berries in the fall that almost cover the branches. One of the most striking and unusual shrubs in Autumn. 2-yr. size 90 cts.; 3-yr. size, $1.25.

MOCK ORANGE (Philadelphus coronarius). This is the good, old-fashioned Mock Orange of our grandmothers' time, with double white and orange blossoms, highly scented, which are produced in May. This is a vigorous growing shrub, very symmetrical and attractive, extensively used in shrub plantings. Very popular and satisfactory. 2-yr., 90 cts.; 3-yr., $1.25.

SNOWBERRY (Symphoricarpos racemosus). This shrub gets its name from the large white berries, like cranberries, produced in clusters in the fall. Very conspicuous in a shrub planting and a distinct novelty when cut and used in vases in the house. Its attractive little white and pink flowers are produced in July and August when flowers are scarce. 2-yr., 90 cts.; 3-yr., $1.25.

INDIAN CURRANT (Symphoricarpos vulgaris). Very similar to the Snowberry except that it bears quantities of little, pointed, red berries in the fall which practically cover the top of the bush. Extensively used in shrub plantings and very attractive as hedges or as clumps on the lawn. 2-yr., 90 cts.; 3-yr. $1.25.

**Lilacs**

Old-fashioned Purple. A strong, vigorous, upright grower with rich, dark green foliage, producing great trusses of deliciously sweet-scented purple flower clusters. Always a favorite.

Old-fashioned White. Similar to purple, pure white flowers, very fragrant.

Rouen Lilac. A strong grower with spreading branches and large green leaves. Flowers intense violet-blue and very fragrant. One of the most popular.

Persian White. Similar to purple, but pure white flowers. Exceedingly fragrant.

Prices of all Lilacs: 2-yr., $1.25; 3-yr., $1.75.

**Snowball (Viburnum)**

Japan Snowball. (Viburnum plicatum). The most popular of all the Snowballs, because it bears a tight compact cluster of flowers resembling a pure, white snowball. These flower clusters cover the bush in spring. The handsome green and purple foliage gives these snowball clusters a rich background of color. 2-yr. size, $1.25; 3-yr. size, $1.75.

PINK FLOWERING ALMOND (Amygdalus nana). This is a very graceful, beautiful shrub, and in May its branches are thickly covered with quantities of double pink flowers, very attractive. 3-yr., $1.75.

SWEET PEPPER BUSH (Clethra alnifolia). A neat-growing shrub, having rich green foliage. Bears showy spikes of fragrant white flowers from July to September. 2-yr., 90 cts.; 3-yr., $1.25.

GOLDEN PRIVET (Ligustrum oval. aurea). Dwarf, bushy, golden-leaved plant, much used for formal and edging work, where a bright color is required, often used in ball form. 2-yr., 75 cts.
FIFTY THOUSAND COLLINS-GROWN SELECTED QUALITY JAPAN BARBERRY PLANTS

The brilliant Red Berries brighten your garden all winter—bring the earliest birds in Spring.

“If Winter Comes”

and leaves your garden more desolate each week—if you long for a dwarf hedge that will supply the touch of brightness throughout the Winter, that will bring the robins to your garden to feast in early Spring before the worms are above ground, investigate this Barberry offering NOW.

No Disease—No Insects attack this species of Barberry. Highly recommended by all authorities.

Collins 50,000 Japan Barberry Plants—
The Ideal Hedge Plants—

Showing the Summer Charm of a Barberry Planting Around a Vine Covered Porch

For a dwarf hedge Japan Barberry is ideal. The branches are gracefully curved, and grow so thickly they make a dense hedge. You need trim it only four or five times a year to keep it low, bushy and compact.

Throughout the summer the foliage is a beautiful green and very pleasing, changing to a fiery blaze of bright orange and scarlet in autumn rivaling the changing maples and oaks. In winter its brilliant red berries shine gaily through the glistening ice on the branches and are the delight of the earliest birds in spring which seek them eagerly.

Cluster these attractive plants at your walk entrances or at your porch; they are most adaptable. Our plants are well-rooted, well-grown and very bushy.

SPECIAL OFFER: We shall send you 12 carefully selected strong plants well branched and well rooted (12–18 inch size) for $2.50 postpaid. They are so hardy they thrive anywhere.

A half-dozen Suggestions:
1. Plant them in a row in front of your porch.
2. Plant them in opposite rows down each side of your walk.
3. Group them at the walk entrance.
4. Group them on both sides of your front steps.
5. Plant them at the bases of large shrubs and trees to hide unsightly bare spaces.
6. Plant them on the bare side of your house where other plants have failed.

Wherever you plant Collins Japan Barberry that spot will be brightened by rich green foliage all summer, brilliant gorgeous colors in autumn, clusters of sparkling red berries in winter, in short—beauty itself will there abide throughout the year.
This attractive photograph was sent to us by one of our customers, unsolicited by us. He says: "On October 22, 1915, I received 900 California Privet plants from you, and the hedge which they form is certainly fine. I will enclose cards showing hedge and house. If you can use them, you are welcome to them. I am well pleased with the hedge. It has grown 2½ feet wide and 2½ feet high in 4 years."—JOHN W. G. YOUNG, PA.

Collins California Privet

What is Collins California Privet? It is a strong healthy plant with glossy green leaves, and when mature it bears small clusters of white flowers.

For what are the plants used? For hedges, for screens, for planting between the lawn and the street, for clumps on the lawn, for arches, for flanking walk entrances, and for one hundred other purposes.

Do you just plant them? Yes, that's all, set them out in a single row (or if you prefer in a double row) six inches apart in the row, and if in double row plant them staggered. This requires two to the foot, or 100 plants for 50 feet. Tramp the earth well about the roots and trim the hedge off even on top.

Are Collins Privet Plants healthy? Yes. They are grown on strong Jersey soil, we keep them well farmed which kills the weeds and makes the plants grow fast, and we give them liberal helpings of fertilizer and manure. That ought to make them healthy and happy, and they are.

So popular has this California Privet Hedging become that we venture to say that there is more of it planted each year about the properties in the eastern section of the United States than all other varieties of hedging material put together.

VINIES AND
CLIMBERS

CLEMATIS (Jackmani). Beautiful large-flowering Clematis, very popular on account of its rich purple flowers. The plants like moist, rich, fertile soil (not sour); set the crowns three inches below the surface. 75 cts. each, $7.50 per dozen, postpaid.

CLEMATIS (paniculata). Flowers small, rich creamy white, borne in handsome clusters, completely covering the vine; exceedingly fragrant. The sweetest of all Clematis and one of the hardiest and easiest to grow. Good, strong 2-yr. plants, 50 cts. each, for $1.50; extra-size, 3-yr. plants, 75 cts. each, 4 for $2.50, postpaid.

HONEY SUCKLES

Everblooming Honeysuckle (Heckrotti). Color is crimson-carmine on the outside of the flower, which contrasts beautifully with the golden apricot of the inside as the flower opens. Blooms unceasingly all season.

The Beautiful Halliana Honeysuckle. This variety is intensely sweet-scented. It is a strong, clean, neat grower, perfectly hardy, almost evergreen, with leaves that shine as if varnished; constant and most profuse bloomer; flowers buff-yellow, passing to white.

Red Coral Honeysuckle. A hardy, rapid grower, suitable for rockwork, walls, etc. Flowers coral-red, very pretty.

Price of Honeysuckles, 2-yr., 50 cts. each, $5.00 per doz.; 3-yr., 75 cts. each, $7.50 per doz.

IVY

Japan, or Boston (Ameplopsis Veitchii). For covering houses, churches, schools, etc., this vine has no equal. The handsome, deep green foliage changes in autumn to crimson. 30 cts. each, $2.50 per doz.; 2-yr. plants, 40 cts. each, $3.50 per doz.; extra strong, 2-yr. plants, 60 cts. each, $5.00 per doz. See photo at top of page.

American (A. quinquefoia). The true Virginia Creeper; hardy and noted for its brilliantly colored foliage in autumn. 2-yr., 40 cts. each, $3.50 per doz.; 3-yr., 60 cts. each, $5.00 per doz., postpaid.

Hardy English (Hedera helix). A hardy, evergreen, climbing vine with dark, glossy green leaves. 50 cts. each, $4.00 per doz., postpaid; large size, 75 cts. each, $6.50 per doz.

KUDZU VINE. One of the most rapid-growing vines in cultivation, growing to 50 or more feet in one season. The large foliage makes dense shade and bears small rosy-purple blossoms in summer. Just the thing where you want to cover an unsightly fence or drape an arbor in a very short time. 1 yr. 60 cts. each; 2yr. 90 cts. each, postpaid.

WISTARIAS

Collins wistarias are valuable wherever tall-growing climbers are wanted. They are hardy, rapid growers, and the flowers are borne in long, pendulous clusters early in the season. Our plants are grafted (not seedlings) from specially selected stock, hence they are sure bloomers. For best results they should be planted in deep, rich earth, but they will thrive in sandy soils.

Chinese Blue. Lovely violet-purple flowers; deliciously sweet. 2-yr., 75 cts.; 3-yr., $1.00, by express.

Chinese White. Very similar to the Blue Wistaria. The flowers are attactive, pure white, and very sweet scented. 2-yr., 75 cts.; 3-yr., $1.00, by express.

I wish to thank you for the copy of your "Collins Planting Guide." It takes me well back to the seventies when I was a customer of the firm. As opportunity offers to use your Guide, it will be a pleasure indeed, as my experience assures me the people can place an order with confidence in getting good stock true to name from you.—J. T. B., Baltimore, Md.

Vines received to-day in first class order and I must say you know well how to grow such, best I ever had of two year old stock. Thanks for sending such good ones.—W. A. W., Chestnut Hill, Pa.
Collins High-Class Evergreens

On these next four pages we are going to tell you about our Evergreens and show you what they are and how to use them. We realize how confusing their names are, we wish they had shorter ones, but you can't even nickname them. Our descriptions are as careful and accurate as they can be made, but the best plan is to select your evergreens right here in our nurseries. See what you buy—assure yourself complete satisfaction.

If you are unable to do that we shall be glad to call to "look over" your property and study your needs, advising you what to plant. Or you may draw a rough sketch of your property and mail it to us, showing clearly where you wish to plant Evergreens, (whether as a hedge, or in front of your porch, or as specimens on your lawn), stating how much you desire to spend. With this in hand we shall be glad to draw you a "lay-out" sketch and mail it to you for your approval. This service will cost you nothing, we are willing and anxious to help you.

Our Evergreens are systematically root-pruned, and owing to the fine quality of the garden loam in which they are grown, THEY HOLD A LARGE BALL OF EARTH WHEN MOVED. Beware of Evergreens that do not come with a good ball of earth—they may live, but are not nearly so satisfactory as those that are moved with most of the roots undisturbed, in a large solid ball of rich soil. This is a big factor in the satisfactory transplanting of these trees and one that is often overlooked. The success of an Evergreen depends on its roots.

We guarantee each plant to be a perfect specimen of its kind.
BEFORE PLANTING

As the proper setting beautifies a jewel, so the proper foundation planting of evergreens beautifies the house. These two pictures—taken only three hours apart—show that you get immediate pleasing results if you plant Collins well grown, handsome evergreens.

AFTER PLANTING

I have been admiring the shrubbery since the day you planted it, as everyone else has. Every tree seemed to start to grow at once. We think, as well as our neighbors, that we have as nice a display as anyone in C—.

R. G. K.

The special $24.75 collection received in very good condition and I am very well pleased with it as the plants are larger than I had expected.

H. A. M., Fairview.

“My house looks bare, but I don’t know what to do!”
How often we hear that! The words of the perplexed property owner who realizes his house is conspicuous but has neither the time nor the experience to “landscape” it wisely and correctly.

To help all of you who are in such a predicament we offer

“COLLINS LANDSCAPE COLLECTION”

containing eight Specimen Evergreens, five assorted Flowering Shrubs, and four Japan Barbery plants which have brilliant fall coloring and red berries in winter.

These plants are all very hardy, can be trimmed back once a year if you want them to stay small, and will grow more beautiful and pleasing to you day by day. (Plan shows planting-key at foot of page. Easily planted.)

The cost to you $24.75 (Packed and ready for shipment) (Prepared only when ordered)

This is the only “landscape” collection we offer. We allow no substitution; by selling a great number of these collections we are able to offer you these first-class plants for $24.75 to get you started. Here is your opportunity.

Every plant must suit you upon arrival or your money refunded.

In planting this collection about your house you add many times its cost to the value of your property immediately.
Among the vast assortment and collection of beautiful Evergreens at our Nurseries you may come and make your own selection from the various colors, shapes, and sizes, adaptable to any purpose. Only by seeing them with your own eyes can you know them and appreciate them. No amount of description and cataloging of these beautiful specimens can begin to picture them for you, you must see them, walk among them, breathe deep in their delightful fragrance, and make your own personal selection. We shall be very glad to assist you to make the proper selection, advising suitable varieties for your location and needs. Here is a partial list of the Evergreens at your disposal at our Nurseries:

Our Rear Cover Shows Collins
“Get Acquainted” Offer

which is the sensation of the Evergreen World.

Six beautiful Evergreens for only $10.00 by express. (See actual photograph, outside rear cover.) Every tree is a graceful specimen—carefully selected—giving you remarkable range of forms and colors. All dug with a large, generous ball of earth securely burlapped, keeping the roots in perfect condition in transit.

This collection will give you “satisfaction with Evergreens” and at a very low initial cost.

1 Douglas Blue Spruce
1 Canadian Hemlock 1 Red Juniper
1 Austrian Pine 1 Norway Spruce
1 American Arborvita

A Wonder Collection—impossible to beat it. This “Get-Acquainted” group can be planted in front of your porch, at the corner of your house, or as attractive specimens on your lawn; charming whether planted singly or in groups. They “Cheer-up” any dull property, and smile at you through the cold winter days.

A Real Value for Your Money

6 Charming Evergreens for $10.00 by Express

“Beautiful all the year—once planted always pleasing.”

These evergreens will not be sent out until the latter part of April when the ground will be mellow and warm and fit to receive them. Please do not write “hurry-up” letters. Send your order in early, however, as the number of these collections available for our customers this year is limited. Orders filled in rotation.

West Virginia Purchaser is Well Pleased

Dear Sirs:
The evergreens received in fine condition. I am pleased in every way with your selection, they are planted and I look to see them all grow.

Mrs. R. K. T., Fairmont, W. Va.

Evergreens and shrubs received, and we are well pleased with your selection, especially the evergreens which are beautiful.

A. C. S., Maple Shade, N. J.

I am glad to inform you that the trees you sent me last Spring did splendidly. Please send me a good selection of grape vines.

C. L. P., Norwich, N. Y.

Enclosed please find order for trees, berries, etc. and also check for same. All of the trees which I purchased from you last year have done fine.

E. R. L., Manasquan, N. J.

We received the tree and plants and we are very much pleased with all.—H. R. S., Tamaqua, Pa.

Enclosed herewith please find money order for $39.85 for four orders for stock. In visiting some of my friends I received the enclosed four orders. These people have all seen my small place which is entirely stocked with your trees, plants, etc., hence the orders.—E. H. T., Passaic, N. J.

The trees my husband ordered from you on April 1st came yesterday by express and are fine looking trees.—Mrs. J. S. B., Cordova, Md.

The two Christmas Trees came yesterday and they are little beauties. Thank you for them. E. B., Baltimore, Md.
COLLINS DECIDUOUS TREES

are beauties. Their trunks are straight, they are well branched on every side and, what counts most, they have plenty of good fibrous roots. Buy a tree that has good roots; it always saves trouble later.

Sugar Maple—a beautiful shade tree for the lawn or street

Acer . The Maple
A. platanoides. Norway Maple. A large and handsome tree with a compact round head. Leaves bright green, paler beneath, smooth on both surfaces, changing in Fall to beautiful tones of yellow and gold. A splendid street tree; equally desirable for lawn or landscape. 8 to 10 ft., $3.50; 10 to 11 ft., $4.25; 11 to 12 ft., $5.00. Specimens, $6 up.

A. saccharinum. Sugar Maple. Large, stately, dense tree. Leaves dark green above, pale below, turning in autumn to brilliant shades of scarlet, orange, and yellow. A quick grower, adaptable to all soils. (Note illustration.) 8 to 10 ft., $2.75; 10 to 12 ft., $3.75. Specimens $5 and up.

Betula . The Birch
B. papyrifera. Paper Birch. A handsome and very ornamental tree with white and papery bark. Set out a group in front of white pines or hemlocks and you will have a charming winter background. 10 to 12 ft., $3.75.

Catalpa Bungei
The Umbrella Tree
A dense, round-headed bush, grafted high on a straight, upright stem. Very hardy and effective; much used in formal gardens and lawns, having the outlines of the standard bay tree. 5 to 6 ft., medium heads, $2.50; 1½ inch stems, large heads, $2.75, Grand Specimens $8.

Crataegus
The Hawthorn
Crataegus Oxycantha albo-plena. Has clusters of double white flowers, resembling little roses, during May and June. A small tree to 15 feet; fruit scarlet. 4 to 6 ft., $2.50.

Cornus . The Dogwood
C. florida. White Dogwood. One of the most beautiful flowering trees; leaves bright green, turning red or scarlet in the fall. The flowers, borne in spring, are white, very showy, and abundant. Fruit in the fall is bright scarlet. Very satisfactory. 4 to 5 ft., $2.00; 5 to 6 ft., extra developed, $2.75.

C. florida rubra. Red Dogwood. Strikingly beautiful, in contrast to the white-flowering forms. Conspicuous flowers of bright rose red or pink. Autumal tints of foliage are brilliant. 2 ½ to 3 ft., $2.50; 5 to 6 ft., $7.50.

Cytodia Japonica
Japan Flowering Quince
This is a very attractive bush. Quite popular since it is such a prolific bloomer in May of beautiful orange-red flowers which cover the plant and make it appear as a blaze of color. The quince-shaped, fragrant fruit of golden yellow remains a long time in the summer. Very attractive and dwarf in habit. 1½ to 2 ft., $1.50 each.

Gingko Biloba
The Maidenhair Tree
Also called Gingko. This makes a small tree, very slender and neat-growing. It is proof against diseases and insects. The Gingko is the only tree known that has no midrib in the leaf, which is similar to that of the maidenhair fern. The bark is clean, the trunk straight; a dainty, artistic tree, always interesting. 8 to 10 ft., $2.75.
DECIDUOUS TREES
Continued

Quercus. The Oak

Q. coccinea. Scarlet Oak. Turns a fiery scarlet in the fall, making it very desirable for lawn or street planting. 6 to 8 ft., $3.25.

Q. palustris. Pin Oak. The handsome, drooping branches form a broad, shapely, pyramidal crown; pleasing bright green foliage, deeply lobed and sharp pointed, turning to gorgeous reds and browns in autumn. 8 to 10 ft., $3.25.

Tilia. The Linden

Tilia americana. American Linden or Basswood. A large tree forming a broad-topped crown. Leaves broadly oval or heart-shaped, dark green above and paler green beneath, turning yellow in autumn. Flowers creamy white in summer. Fine for streets and lawns. 10 to 11 ft., $3.75.

Ulmus. The Elm

Ulmus americana. A magnificent native tree, with a wide-arching top and out-curved branches. The green foliage turns yellow in the fall. Stately and handsome, they are well-known through New England. 8 to 10 ft., $2; 10 to 12 ft., $3.

Malus. Flowering Crab Apple

Malus Ioensis. Bechtel’s Double-flowering Crab. A fine new double-flowering variety. Flowers have a delicate blush-coloring or shell-pink, and are highly scented. 3 to 4 ft., $2.25.

Morus alba pendula. The Weeping Mulberry

A beautiful weeping, drooping tree; hardy, thrifty and most ornamental. The branches are extremely long and slender; the foliage is light green and the fruit reddish purple. (See the illustration.) Medium heads, $3.00; large heads, $3.75, extra developed heads, reaching ground, $10.

Platanus orientalis. The Buttonwood

Oriental Plane. One of the most massive and rugged of American trees. On account of the patched and mottled appearance of the bark, the trunk and branches are very attractive through winter. Not affected by smoke of cities nor worms and insect. 8 to 10 ft., $1.50, 10 to 11 ft., $2.25; 11 to 12 ft., $3.

Populus. The Poplar

Lombardy Poplar. A tall, columnar tree of picturesque and very formal aspect. Valuable for avenue planting, for windbreaks and screens as well as for the lawn. The tall tops, reaching above the surrounding trees, are very striking. 7 to 8 ft., $1.00; 8 to 10 ft., $1.25; 10 to 12 ft., $1.75; 12 to 14 ft., $2.50.

Salix. The Willow

Salix babylonica. Weeping Willow. A large tree with slender branches. The narrow leaves, tapering to a long point, are bright green and the first to appear in spring. Very picturesque; universally known. Fascinating in a high wind. (The illustration at left shows a group of four.) 6 to 8 ft., $1.50; 10 to 12 ft., $2.00.
Collins Selected Strawberry Plants

The above photograph shows our digging beds—where the plants you buy will come from 600,000 plants in this block alone. We spare no pains to produce the best plants. The ground is heavily manured and deeply plowed before setting out our young plants in the spring. They soon take root, and grow rapidly, forming new runner plants early in the season. We hoe these beds frequently to keep the weeds back, in order to give the plants every show. As a result we have a block of sturdy young plants by fall—healthy, vigorous and very well rooted. Therefore when you plant them in your garden or your field you will get results.

Shipments. Our Plants are Healthy Field-grown Plants. Our shipping season is in the spring months, also from September 15th to November 1st. However, we advise planting Strawberry Plants in the Spring. The Ever-bearing varieties will bear that Fall and the standard varieties the following year. We can furnish potted plants from July 15th through the summer, these are moved with a ball of earth and produce berries the following year, prices furnished upon application. Upon receipt of your order your Strawberry Plants will be dug, then packed in damp moss and mailed or shipped to you immediately. When they arrive plant them promptly, or keep them in a cool place. Never allow the roots to become dry, and you should not lose a plant.

(Varieties listed and described on the next two pages.)

Gentlemen: Strawberry plants received and they are the finest rooted plants I have ever received.
-S. B., Birmingham, Ala.

Gentlemen: The strawberries I purchased from you in the Spring of 1919, did wonderfully well. These plants have grown 18 inches tall and altho I planted them 18 inches apart they are crowded for room, they spread out so far.
A. E. P., Roxbury, Conn.

My father bought strawberries and other plants from your firm 50 to 60 years ago. This I remember when I was a boy.—T. S., Wilmington, Del.

I purchased some Lupton Strawberry plants last year and although they were set out late and the season one of the driest, they did well, covering the entire space between the rows.—E. G. H., Hasbrouck Heights, N. J.
Benson. Per. Midseason. Plants are vigorous growers and very productive; scarlet-red fruit of excellent quality and large size. Fine for home garden.

Big Joe. Per. Midseason. Big Joe is one of the highest-priced and most popular berries in the New York markets. Plant a strong grower, makes lots of plants and a good fruiting bed. Berries handsome, firm, and of good quality.

Campbell’s Early. Per. Early. Berries are large, sweet, firm, with round nose. All grow up, no knotty berries. Good bedders and setters; a fine commercial sort; heavy cropper. We consider this the very best early berry of all.

Early Jersey Giant. Per. Early. Yields very large berries very early in the season.

Gandy. Per. Late. Berries large and firm, highly colored and uniform. Plant strong grower; produces big crops.

Glen Mary. Per. Midseason. Dark red berries; good shippers, firm; excellent flavor; quite fancy. Plants are extra-strong growers, known to produce 10,000 quarts to the acre.

Heritage. Per. Late. Berry fancy, fine-shaped, quite firm, and delicious. Plants good growers. Berries have large caps, making them very attractive in quart boxes.

Lupton. Per. Late. The finest berry in the whole list. Quality good; fruit very large, will stand much shipping. Plants strongest growers; foliage heavy and abundant. Most satisfactory. Being very solid it holds together and does not go to pieces when cooked.

McAlpin. Per. Late. Berries medium to large, almost perfectly round, brilliant scarlet, and unsurpassed in quality. Ships well and makes a good appearance. A home-garden or market variety. Plants strong, vigorous growers.

Premier. Per. Very early. Berries are large, beautifully formed, bright red all the way through. A money-maker, producing heavy crops of firm, delicious-flavored, handsome fruit. We endorse Premier strongly.

Senator Dunlap. Per. Second-early. Plants grow like weeds, are very productive, and have extra-long flowering season. Fruit bright red, glossy, and very attractive.

Stevens’ Late Champion. Per. Late. Foliage dense and rank, amply protecting berries from sun-blisters. Berries bright and solid, sell well in market.

Wm. Belt. Per. Midseason. Berries have excellent flavor, are quite firm and very fancy. Plants very productive, rugged and stand drought well. A very satisfactory kind for either garden or market.

Prices of above Strawberry plants: 25 plants 65 cts., 50 plants $1.05, postpaid. By express, 100 plants $1.65, 250 plants $2.90. Prices on larger quantities furnished on application.
St. Martin. Enormous size, many specimens measuring 6 inches and over in circumference, averaging about 30 to the well-filled quart basket. Excels in productivity and size. Berry deep red, no knotty tips. Flavor excellent. Plants make many vigorous runners, and a few plants set out will soon make a thickly matted row. Long after the other berries have dwindled in size and stopped bearing, the St. Martin is still ripening up big luscious berries. Every berry matures fully whether it is the first or the last picking of the season. It is a sheer joy to pick such a berry. Price same as “Bushel Basket.” (See below).

Bushel Basket Strawberry

This is something very new and startling in the Strawberry line. One plant has been known to produce 508 plants in a summer, of course the plant was fed strong plant food. Some Bushel Basket Strawberry plants grow so large that a bushel basket will not cover them. The berry is of sprightly flavor and of a beautiful shade of red. It is slightly necked, making picking easy, is extra large, and is a good canner being red to the core. It is not hollow at the core nor tough, and has small seeds. It is a money-maker. This berry has won the Barry Gold Medal.

Price of St. Martin and Bushel Basket. 12 plants 90 cts.; 25 plants $1.50; 50 plants $2.50, postpaid; by express, 100 plants $3.75; 250 plants $7.50.

Prices for larger quantities on request.

Collins Everbearing Strawberries

Progressive is a persistent bearer, producing from the time other plants begin to bear in the spring until a very heavy frost in fall. This variety makes strong, vigorous plants, and it is a home-garden berry as well as a market variety, the berries being of high quality, firm, delicious, and very productive. 25 plants $1.00, 50 plants $1.75 postpaid. By express, 100 plants $2.50, 250 plants $4.50. Prices for larger quantities furnished on request.

LUCKY BOY is the biggest, sweetest, most productive berry. It makes runners and new plants fast and, being deeply rooted, is quite drought-resistant. Young runner plants will fruit in a few weeks after rooting, and will produce a good crop if blossoms are kept cut until July, when they may be allowed to bear. This is the best quality Strawberry we know of. It is larger than either Progressive or Superb and is produced in immense crops. We believe it will produce 20,000 quarts to the acre if given good culture. 25 plants $1.50, 50 plants $2.50, postpaid. By express, 100 plants $3.75, 250 plants $7.50. Prices for larger quantities on request.

Gentlemen: The catalog I had, gave to son who ordered from you Oct. 13. I have picked strawberries from everbearing plants which you sent, they are a wonderful plant.—J. M. C., Phila.

Dear Sir: Will you send me twenty-five Progressive Strawberry plants by Parcel Post as I got some last year and they were fine.—G. R., Stamford, Conn.
One Hundred Quarts of Strawberries from this Collection

Success—The long season early strawberry, very prolific.

Send Us $2 and we will send you postpaid 100 Specially Selected Strawberry Plants your choice of 25 plants each of any four varieties from the following six finest, big crop varieties:

Progressive. Bears all summer until frost.
Glen Mary. Midseason; fancy; productive.
Campbell's Early. Large; early, very productive.
Success. Early, very sweet.
Wm. Belt. Late; rich-flavored.
Lupton. Fine for canning; solid; large.

These plants are separately selected, each one a first-grade plant, and the best your money can buy. Every plant guaranteed by us to grow. Any that die will be replaced free.

Get started with the right kind of plants. (See order blank at rear of catalogue to order this collection)

Dear Sir: The parcel post collection of the "four varieties of berries" came duly to hand in splendid condition. They are fine plants. Thanks for same.

H. D., Greenwich, Conn.

From the thousands of these collections, formerly sold at $3 each, we have many other enthusiastic letters.

A September yield from Progressive ever-bearing strawberries.
COLLINS NURSERIES, MOORESTOWN, N. J.

Cumberland Raspberries—fine "black caps"

COLLINS RASPBERRIES

Among the berries we consider the Raspberry to be second only in importance to the strawberry. It is strong and hardy, requiring little care, and is less affected by the drought than strawberries. Every garden should have Raspberries, and any soil that is capable of raising vegetables will raise good Raspberries. Yield is about two quarts per bush per year.

For commercial planting we recommend King, Cuthbert, Marlboro, and St. Regis, which varieties bear in the order named. Cumberland, Gregg, and Plum Farmer, we recommend as good blacks. Plant the bushes 2 feet apart in the row and 5 feet between rows, about 4350 to the acre.

In the garden they may be planted closer together, that is, 2 feet apart, and the rows 4 feet apart. Thus, in a garden plot that contains 300 square feet, you can plant 36 bushes and these will give you about 70 quarts per year. We suggest King, Cumberland, and St. Regis. This gives a good early red, a black, and an everbearing which makes a nice succession.

Cardinal. Purple. Vigorous in growth, hardy, and productive. The berries are of medium quality. 75 cts for 10; $5.50 per 100.

Columbian. Cap. Purple. Has a rich juicy pulp and a good flavor. It is of remarkable vigor and productiveness. The berry is somewhat conical in shape and very large. 85 cts. for 10; $6.50 per 100.

CUMBERLAND. Black. This is a cap variety and the largest of all the black Raspberries. It is sweet and quite firm, and makes a good appearance. The season is medium early, and the plants are very hardy. 65 cts. for 10; $4.50 per 100.

Cuthbert. Red. The leading red Raspberry, the standard main-crop variety. It is very productive of large, conical, rich crimson berries, and altogether it presents a very handsome appearance. The flavor is delicious and the fruit as a market berry and a shipper has no superior in red Raspberries. The season is medium to late. 75 cts. for 10; $5.50 per 100.

GOLDEN QUEEN. Yellow. The best of the yellow sorts. It is large, sweet, and juicy and of excellent quality. Season medium to late. This makes a very beautiful dessert when served on the table. $1.00 for 10, $8.50 per 100.

Quantity prices on application
GREGG. Black. One of the best known of the late varieties. It is a good shipper and one of the best for evaporating. The plant is a strong, vigorous grower and on good soil produces large berries which are firm, meaty, and of fine flavor. It is a profitable market berry. 65 cts. for 10, $4.50 per 100.

KING. Red. This is the earliest Raspberry. The canes of the plant are hardy and very productive. The berry is round, of large size, and of a light crimson color, being a good shipper in the bargain. The quality is good. 75 cts. for 10, $5.50 per 100.

Marlboro. Red. As a shipper it is unsurpassed and noted for its firmness. The berries are fine, large, juicy ones and ripen early. The bush is an upright and vigorous plant. 65 cts. for 10, $4.50 per 100.

SPECIAL RASPBERRY OFFER
Four each of Cumberland, King and St. Regis Ever-bearing, twelve strong plants for 90 cts., postpaid.

PLUM FARMER. A black variety that has come to stay as a market sort. Berries are thick meated, juicy, and firm, making it a good berry to evaporate or to ship to distant markets. There is no fruit more in demand than blackcaps, and if you have well-drained soil to plant them on, your returns will be sure to be good. This is a very superior kind and much more valuable than some of the other blacks. Season early. 65 cts. for 10, $4.50 per 100.

ST. REGIS. Red. This is the only variety that produces a crop the same year that it is planted and two crops a year thereafter. Many growers in New Jersey have averaged over $400 per acre from this variety. About the middle of August it commences to set fruit on the young canes and bears continuously until frost. The berries are large, beautiful, and attractive. St. Regis is one of the best for a main crop and is not in the least affected by its fall-bearing qualities. 75 cts. for 10, $5.50 per 100.

Shaffer's Colossal. Purple. A very large berry of dull purple color, medium firmness, but of such fine flavor that it is unrivaled for table use and for canning. Season late. 85 cts. for 10, $6.50 per 100.

Quantity prices on application. Cuthbert

Gooseberries

People are just realizing the great value of the Gooseberry, single bushes of which yield a half bushel or more of berries a season. The great plantations of New York and Indiana have made some remarkable records, as well as our own fields containing over 20,000 bearing plants.

We recommend for field culture the Downing and the Houghton. Plant them 4 feet apart and 5 feet between the rows, making a total of 2,175 to the acre. For garden culture, plant them 3 feet apart, and 4 feet between the rows. Gooseberry jam is fine in the winter.

DOWNING. Large berries, solid and very firm. The bush is unusually free from mildew. It produces great quantities of large light-colored berries, of excellent quality. It is one of the oldest and most widely grown varieties, and is valuable for shipping, even for great distances.

HOUGHTON. Very productive; the berry is of medium size, and for general purposes is one of the best varieties. It is about as healthy and as hardy as any kind, and almost always produces a full crop. When the berry is ripe it is a good red, and is sweet and good. It is a strong grower and very prolific. It is entirely free from mildew.

Price of Gooseberry Plants: 30 cts. each; $2.75 for 10; $25 per 100.
BLACKBERRIES
—A PROFIT CROP

Fertile soil makes Blackberry Plants produce enormous crops. Cultivation and fertilization of the ground will reward the grower. Our plants are grown from root cuttings and are very desirable. For commercial planting we advise Blowers, Eldorado and Ward. Set plants 3 x 6 feet apart. For garden planting Blowers and Ward are best, 3 x 5 feet apart.

BLOWERS. This is one of the most remarkable new fruits ever produced. One single bush has been known to have produced 2,694 berries. It has the longest fruiting season of any Blackberry, lasting from July to October, producing its greatest crop in August, and much in September. It is very attractive for market both on account of its size and its excellent appearance. Usually sells at from one to two cents a quart higher than other kinds. $1.25 for 10; $8.50 per 100.

ELDORADO. The plant is very hardy and has not been known to winter-kill in any section of the country. It enjoys entire freedom from rust. This berry originated in Ohio a few years ago and as fruited here is very productive. When sent to market it brings the best market prices. H. E. Van Deman, former U. S. Pomologist, writes: "I have gathered many wild berries, but never have I tasted anything equal to Eldorado." $1.25 for 10; $8.50 per 100.

ERIE. This is a hardy, vigorous grower and quite productive. Foliage clean and free from rust. Fruit large and of good quality. Considered a valuable market sort, as it brings good prices. $1.25 for 10; $8.50 per 100.

Iceberg. Here is a real creamy white Blackberry. The berry is about the size of the Snyder, has few seeds, and when fully ripe is quite sweet and delicious. Mixed with the glistening black ones in a dish they make a fine dessert. The bushes are very productive. $1.25 for 10; $8.50 per 100.

Joy. This new berry is large and rich, almost as thick as it is long, is coal-black and has a rich, unsurpassed, luscious flavor. It is particularly hardy. Ripens midseason and produces great quantities of berries on all the canes. $2.00 for 10; $15.00 per 100.

Rathbun. Berries are large and of a glossy jet-black color. Its good flavor, small seed, and soft core make it a variety highly esteemed for quality. Its large, firm berries make it a good shipper. $1.25 for 10; $8.50 per 100.

Snyder. Firm berry, juicy, sweet, and of good quality. Exceedingly hardy and disease-resistant. A good market sort. $1.25 for 10; $8.50 per 100.

Ward. This is a vigorous grower and gives large annual crops of beautiful large berries. The fruit is black throughout, firm and good for shipment, yet tender and melting and of the best quality. This is more largely grown than any other variety. The plant is rust-resistant, and the berries are almost wholly without a core. Midseason. $1.25 for 10; $8.50 per 100; quantity prices on application.

Blowers Blackberries
CURRANTS

Currants like best a very moist rich soil, and the plants for commercial planting should be set 4 feet apart and 5 feet apart between the rows. This requires 2,175 plants to the acre. We recommend President Wilder, Red Cross, and Victoria.

For the home-garden we recommend Fay’s Prolific and Cherry. The plants should be set 3 feet apart and 4 feet between the rows.

CHERRY. The fruit is large, a deep red, and rather acid. The bunches are more compact and short, and the bush is thrifty. 40 cts. each, $3.00 for 10, $25.00 per 100.

FAY’S PROLIFIC. The berries are exceedingly large, and are mild and not so acid as the Cherry. A remarkable cropper. The bush is very vigorous. It is especially recommended for home use. Late. 40 cts. each, $3.00 for 10, $25.00 per 100.

COLLINS CURRANT OFFER

Six choice Currant bushes, three Fay’s Prolific and three Cherry Currants for $1.75 postpaid; value $2.50.

Perfection. A superb variety with large long clusters of berries. It is quite popular, though a new berry. The fruit is bright red and grows to a large size. It has few seeds. The bush is a good grower and very productive. Quite early. 45 cts. each, $4.00 for 10, $35 per 100.

Pomona. Has the greatest actual acreage yield on record. Beautiful, bright, almost transparent red, has but few small seeds, and is much less acid than the other sorts. 35 cts. each, $2.50 for 10, $18.00 per 100.

PRESIDENT WILDER. Ripens at the same time as Fay’s Prolific but hangs on the bush much longer if desired. This is a very prolific sort and has become quite popular for the market trade. The large bunches and berries are very attractive and red even when dead ripe. Late. 30 cts. each, $2.50 for 10, $18 per 100.

RED CROSS. The clusters are large, sometimes measuring 5 to 6 inches in length. The fruit is large and of good quality, mild, and subacid for a red Currant. Midseason. 35 cts. each, $2.50 for 10, $18 per 100.

VICTORIA. The best late variety. The bunches are long and the pale red berries are of medium size. They are of superior quality. The bush bears profusely and is a good kind to plant to succeed the other varieties. 35 cts. each, $2.50 for 10, $18 per 100.

WHITE GRAPE. Large yellowish-white, transparent; juicy and rich. The fruit is sweet, and very fine for table use. Authorities pronounce it the largest and most productive of the WHITE Currants. 40 cts. each, $3.50 for 10, $30 per 100.

Dear Sir: Plant received this morning O. K. The stock you have furnished me with has always been satisfactory.—W. W., Chestnut Hill, Pa.
Collins Good Grapes

Grapes can be planted anywhere and will thrive with practically no attention. They will trail over an old back fence or the arbor. The side of your house will be equally attractive to them. Prune them back in the fall so they will keep young and thrifty. "Grape Culturist Book," see page 46.

FIELD CULTURE

We recommend for field culture Catawba, Concord, and Niagara. Plant them 8 feet apart and 8 feet between the rows. This will require 680 plants to the acre. Set a post at each vine and stretch one wire along the tops of the posts and another about at the middle. Prune the vines back to two or three buds each year, this means cut them very hard, but it makes them produce abundantly. Prune back to the old wood each year.

Quantity prices on application.

Brighton. Red. The bunch is medium to large, and is long, compact, and shouldered. The fruit is medium, tender, sweet, and with little pulp. The skin is thin, and this is one of the best early Grapes. 50 cts. each; $4 for 10; $30 per 100.

CA-CO. Red. This Grape is a cross between Catawba and Concord scientifically made, and possesses the merits of both varieties, with the defects of neither. Its good qualities are: High quality, surpassing in tenderness of pulp, luscious flavor and aroma of Catawba; rich, sparkling wine-red, with abundant bloom; bunch large and compact; berry medium to large and nearly round; season early, a little in advance of Concord; skin thin and tough; berry adheres firmly to bunch; a superior shipper and keeper; exempt from rot. The vine is very vigorous and a heavy, annual yielder. 85 cts. each; $7.50 for 10; $50 per 100.

Campbell's Early. Black. This is hardy, healthy, and productive. The pulp is sweet and tender, having a sweet aroma, and of good quality when fully ripe. The bunch is large shouldered and compact. It adheres strongly to the stem, does not crack, is tough, and has a thick skin, which adds to its value as a market Grape. 50 cts. each; $4 for 10; $30 per 100.

CATAWBA. Red. This is the standard red market Grape. The pulp is sweet and the quality excellent. The bunch is large, moderately compact and shouldered. The berries are of good size and have tough skin. It adapts itself to almost any locality or climate, and is a good shipper and a long keeper. It is a good grower and is very hardy and productive. Late. 35 cts. each; $2.75 for 10; $20 per 100.

Collins Special Grape Vine Offer. We offer you six vines in all. Two plants each of the three most popular Grapes for home-gardens—Catawba, Concord and Niagara for $1.50 postpaid. (A $2.10 value.)
CONCORD. Black. This is without doubt the most popular market and garden Grape in America. The bunches are large, compact and shouldered. The berry is large, juicy and sweet, and excellent for grape juice. The vine is quite insect and disease resistant. It ripens early to midseason, maturing its fruit before frost. Our plants have a splendid root-system. 30 cts. each; $2.25 for 10; $18 per 100.

Delaware. Red. Is attractive, keeps well on the vine and in the box is free from the black rot, all of which goes to make it an excellent market Grape. Bunch small and compact, berries small, but juicy and sweet, with thin but tough skin. 50 cts. each; $4.00 for 10; $30 per 100.

HUBBARD. Sweet, delicious, with fine flavor. Seeds few and small, pulp tender, skin thin and firm. Berries and bunch large and uniform. Ripens ten days ahead of Concord. Truly a wonderful grape. Said by some to surpass the Concord and Niagara. 85 cts. each; $7.50 for 10; $60 per 100.

Moore’s Early. Black. Ripens two or three weeks earlier than the Concord. The berries are larger but the bunch is somewhat smaller than that of the Concord. The skin is thin, the flesh is sweet, and the quality is good. 50 cts. each; $4 for 10; $30 per 100.

NIAGARA. White. The bunch is large and handsome. It is compact and sometimes shouldered. The berries are large and very sweet. The skin is thin but tough, and the bunch makes a fine appearance. This is the standard white Grape and we think it will continue to be so for some time. The vine is vigorous and comparatively free from disease, though it responds well to care. 35 cts. each; $2.75 for 10; $20 per 100.

Pocklington. Pale green. The bunches are large and compact, and the berries are very large, being covered with a beautiful white bloom. The quality is good and it ripens soon after the Concord. Very hardy and productive. The skin is thin and the flesh is sweet and juicy and a little foxy in flavor. 50 cts. each; $4 for 10; $30 per 100.

Salem. Dark red. The bunch is large, compact, and shouldered. The berries are large and round, having a thick, firm skin. The flesh is very sweet and tender. Earlier than the Concord. Hardy and vigorous. 50 cts. each; $4 for 10; $30 per 100.

Worden. Black. A close rival to the famous Concord. The grape and the bunches are larger, the fruit is of better quality. The pulp is very tender. A very popular grape. Hardy and vigorous. 50 cts. each; $4 for 10; $30 per 100.

Wyoming Red. Light red. This ripens with the Delaware which it much resembles in appearance, though the bunch and the berries are larger. The berries are sweet and pulpy, and the vine is a good strong grower. 50 cts. each; $4 for 10; $30 per 100.

Collins DOLLAR Grape Vine Collection
5 Splendid Concord Grape Vines 2 years old for $1 postpaid. Plant Collins Big 2-yr. Vines, pick grapes the following year. (Train them over that back fence you have neglected so long.)
Sixteen years ago I bought sufficient asparagus roots from you to set 65 acres of asparagus. Twenty-five acres of this planting I am still cutting. I will need 50,000 selected one year old roots, not later than the middle of February. What strain of roots have you to offer.—W. F. R., Tyler, Texas.

Asparagus Roots

(Asparagus is good for the system)

Asparagus is growing more popular each year both as a crop for market and for home gardens. It is easily raised and a bed once established is good for 15 to 20 years. Lately, Asparagus has been selling at a very good price, $250 to $300 per acre, and being ready for market in April and May, the income derived from it is especially appreciated at that time of the year. Collins Asparagus roots are grown on new land and we give them plenty of manure, which makes the roots healthy and vigorous, and able to produce for many years.

Asparagus does well on all good garden soils, but earliest crops come in light soil. Plant in spring in a trench of earth 8 to 10 inches deep, covering with 2 inches of earth, filling in trenches gradually as plants grow. Set 18 to 20 inches apart in rows; rows 4 to 4½ feet apart—6,220 plants to the acre.

(For valuable book on Growing Asparagus see page 46.)

Barr’s Mammoth. Early and very delicious flavor. The growth remains green when cooked.

Conover’s Colossal. Very large and makes a rapid growth. Quality excellent; planted mostly by market-gardeners, and is very productive.

Giant Argenteuil. This variety excels in productivity and earliness. It has been found to be particularly disease-resistant. In size it is a giant, a single shoot or spear being 2 inches in diameter, and from 10 to 12 inches long. It succeeds well in all climates and in color is white with a purple tip.

Palmetto. Very early, even and regular in size, and of excellent quality. Hardy and very prolific. Brings top prices in markets.

Come, see our half million fine roots.

Owing to the abundant rain last summer our roots made a particularly fine growth, and they are large and well developed. We have a very big stock of roots and shall be glad to quote in larger quantities than here offered, for immediate shipment.

Dear Sirs: I ordered 200 asparagus roots of you last year and in spite of the drought, I never saw such prolific shoots. They stood 3 ft. high when frost came, and we will be able to use the shoots this spring. Please send me your catalog.—Mrs. F. E. D., Ypsilanti, Mich.

Yield $250 to $300 per acre—good for 15 to 20 years.
Collins Pedigreed Mary Washington Asparagus—Rust-Resistant

The United States Department of Agriculture carried out a most painstaking and careful plant-breeding program which was designated primarily to eliminate asparagus rust, and as a result the strain or variety known as "Washington Asparagus" was originated and introduced. This new strain is so much better than any other asparagus, that it seems to be in a class by itself. The Bureau of Plant Industry circular says, "The shoots are very large on the average, with a tendency to be oval in cross section, very early and prolific. The high-branching habit of this strain makes it possible to cut unbranched shoots with good tight buds as much as two feet long. This strain suffers no appreciable loss under severe rust conditions."

We guarantee our roots to be from the true Mary Washington seed—beware of imitations—and our strain has been selected from seed fields composed of the plants that produce large straight shoots, dark green in color with a heavy purple over-tone, the tips are tight and firm and do not open or begin to branch until well out of the ground, which makes this strain especially satisfactory for every use. As a standard variety for fancy asparagus for the home garden as well as the market, it stands above all other varieties in size, vigor, tenderness, quality and rust-resistance. This new strain of asparagus is an innovation in asparagus growing and without a doubt will supplant all of the other kinds in the very near future, as soon as enough stock can be produced to supply all of the demand. We have only a limited supply of roots, not nearly enough to meet the demand this spring. Order early.

Utilize Your Spare Garden Space

100 Roots of Asparagus on a plot of ground 15 feet by 15 feet (six rows 13½ feet apart) or 9 feet by 25 feet (10 rows 13½ feet apart).

Every garden has at least this small amount of spare space that ought to be growing tender, juicy Asparagus. A bed like this supplies the average-sized family, producing for 20 years or more, almost without care. "The kind you raise beats the kind you buy." Cut it fresh just before cooking.

Note. We offer Martha Washington at above prices in 2-yr. size and 1-yr. size only.

Mary and Martha Washington Roots in any quantity—fresh dug—write for prices.

SEED (Reselected) of either Mary or Martha Washington Asparagus, at 60 cts. per packet contains enough to grow more than 100 roots.

Horseradish

This is used in almost every household, especially in the Fall and Winter months when the fresh product is ready. Set the roots in the spring about 6 inches apart. Practically no attention is necessary; in the Fall lift as many roots as you will need, allowing rest to remain in the ground. A bed once started is good for several years. 50 cts. for 10; $3 per 100;

Rhubarb or Pie-Plant

Rhubarb can be planted either in the Fall or the Spring, is very hardy and needs little or no attention. Plant 4 feet apart and in fertile soil. The kinds listed below grow very quickly and will produce abundantly for many years.

Myatt's Linnaeus. This is early, large, tender, and of good quality.

Victoria. Immense stalk of cherry-red color, which cooks fine, having no strings or coarse matter. Of fine quality and tender. A very popular sort.

Prices of rhubarb, $1 for 10; $7 per 100.
Collins Quality Apple Trees

On these two pages we offer you the leading varieties of standard Apple Trees. Collins trees are healthy, they have good roots and tops, and are clean and vigorous. Plant an APPLE TREE in your garden, a strong, sturdy tree, you will soon enjoy its fruit—so will your children and your children's children. That means fresh fruit to eat when you want it, and pies and sauces and jellies unending.

We are extensive fruit-growers ourselves having over 16,000 Apple Trees in our own orchards, and we shall be glad to offer you suggestions and help you where we can. We believe in our own trees—have planted them in our own orchards for over 60 years.

Most Popular Varieties are listed in CAPITAL letters.

Plant Apple Trees 20 x 20 feet, requiring 110 trees to the acre.

**Baldwin.** Winter. Large; deep red, crisp, juicy, and rich flavored.

**Delicious.** Autumn. Fruit large, nearly covered with brilliant dark red; flesh fine grained, crisp and melting, with delightful aroma; very highest quality; a splendid keeper and shipper; tree one of the hardiest.

**Duchess.** Summer. Good size; yellow striped with red; juicy and subacid; a tremendous cropper. Does not bruise—is a good shipper.

**Early Harvest.** Summer. Medium; pale yellow; tender and good. Good throughout the northern states and the northwest.

**Gano.** Winter. Dark red; flesh pale yellow, tender, mild, and subacid. It is a good keeper. Tree a rapid grower. Fruit large and even in size.

**Grimes Golden.** Fall and winter. A fine table and cooking Apple; yellow, rich and tender. When fully mellowed, it is one of the best eating Apples grown. Tree very productive; Apple large and of splendid flavor; a good keeper.

**Jonathan.** Winter. A beautiful red Apple, highly flavored, tender, juicy, spicy, and rich; splendid for family use and highly profitable for market; tree long lived, productive and an early bearer. (See cut.)

**King of Tompkins County.** Winter. Extra-large size; a beautiful red in color, striped with yellow. It is one of the best; tree a vigorous grower.

**Maiden's Blush.** Autumn. Large; greenish white with a beautiful blushed red cheek; tender and pleasant but not high flavored; good bearer.

**Mammoth Black Twig.** Winter. Dark red; a very good winter apple, subacid and high flavor.

**Northern Spy.** Winter. Large; greenish yellow striped red; juicy and rich; rapid grower and fine abundant bearer; good keeper.

**Red Astrachan.** Summer. Large; crimson; rather acid; very early; vigorous and prolific. A fine cooking Apple.

---

Delicious—all that the name implies

Gano. Winter. Dark red; flesh pale yellow, tender, mild, and subacid. It is a good keeper. Tree a rapid grower. Fruit large and even in size.

Grimes Golden. Fall and winter. A fine table and cooking Apple; yellow, rich and tender. When fully mellowed, it is one of the best eating Apples grown. Tree very productive; Apple large and of splendid flavor; a good keeper.

Jonathan. Winter. A beautiful red Apple, highly flavored, tender, juicy, spicy, and rich; splendid for family use and highly profitable for market; tree long lived, productive and an early bearer. (See cut.)

King of Tompkins County. Winter. Extra-large size; a beautiful red in color, striped with yellow. It is one of the best; tree a vigorous grower.

Maiden's Blush. Autumn. Large; greenish white with a beautiful blushed red cheek; tender and pleasant but not high flavored; good bearer.

Mammoth Black Twig. Winter. Dark red; a very good winter apple, subacid and high flavor.

Northern Spy. Winter. Large; greenish yellow striped red; juicy and rich; rapid grower and fine abundant bearer; good keeper.

Red Astrachan. Summer. Large; crimson; rather acid; very early; vigorous and prolific. A fine cooking Apple.
Rhode Island Greening. Winter. Large, greenish yellow, tender, juicy, and good; flesh yellowish, firm, fine grained, crisp and sub-acid; tree vigorous and wide spreading.

ROME BEAUTY. Winter. Large; an exceedingly beautiful Apple of pale yellow shaded with red; tender, juicy, good, and profitable. Quality and flavor way above the average; always sells well. Free abundant cropper.

STAYMAN'S WINESAP. Winter. In appearance and flavor this is one of the best Apples grown. It is quite juicy and is a favorite for making cider. Of medium size, conical, and mostly covered with red and yellow markings. Flesh fine, crisp, and of fine flavor. This will keep well till the following April, if kept in a cool place and not disturbed.

WEALTHY. Summer and fall. Large size when full grown. Abundant cropper through a long season. Fruit red with white streaks; quality good; full of juice; an excellent cooker; fine for sauce or pies. Tree a good grower and quite hardy. Bears early and is a fine shipper.

COLLINS LONG-SEASON APPLE TREE OFFER
Five largest size splendid trees for the garden: Staymans Winesap, Rome Beauty, Wealthy, Grimes Golden and Delicious, the five leading varieties for $4.75. (Regular price $6.25.) A fine succession of luscious apples.

YELLOW TRANSPARENT. Early. Skin clear white, pale yellow when ripe; flesh white and very tender, juicy, subacid, and of fine quality. A productive, excellent, and quite popular variety.

York Imperial. Winter. Medium to large; white shaded crimson; crisp, juicy, subacid, and of fine quality. Tree is a very thrifty, hardy grower. Prolific.

CRAB-APPLE TREES
These trees are very productive and bear when quite young. The trees may be planted on the lawn, as they are very ornamental when in bloom and their fruit shows up fully when ripe. Crab-apples are excellent for preserves and jellies, make good cider, and some varieties are fine for eating.

Hyslop. Large; deep crimson, and most beautiful. October.
Transcendent. Large; red, showy, and excellent. Sept. and Oct. $1.25 each; $10 for 10
This is the way our own trees produce. An August scene in one of our large packing-houses

Peaches That Pay Profits

If you have only a small farm or a little garden space that will grow a tree, by all means plant Peach Trees. They soon pay for themselves. Collins Peach Trees yield over half a bushel per tree the third year, they can do it because we grow them with good roots and free from disease—they're fine young stock and thrifty. Have fresh peaches in your garden and sell the surplus to your neighbors.

Plant them 16 x 18 feet apart requiring 150 trees to the acre.

CARMAN. Cling. White. Large; resembles Elberta. Skin tough, creamy white, with deep blush; flesh creamy white tinged with red. Flavor good; a good shipper. Early, August.

Champion. Free. White. Large size; red cheek; delicious flavor; full of rich sweet juice. Extremely hardy. Late August.

Crawford's Early. Free. Yellow. A fine big yellow Peach with red cheek; oblong; flavor excellent; healthy grower. First of September.

CRAWFORD'S LATE. Free. Yellow. The fruit is of large size, the skin yellow with red cheek, the flesh is yellow, rich, and juicy. The tree is vigorous and is moderately productive. Last of September.

ELBERTA. Free. Yellow. The leader of all Peaches and the greatest commercial variety on the market, over 50 per cent of the Peaches planted being Elberta. This will thrive where any Peach can be grown. A beautiful Peach of good quality; not only the best orchard variety, but also valuable for the garden. It is large, yellow, has a red cheek, and is good and juicy with a high flavor. A fine variety for canning. The Elberta is hardier in bud than many varieties and therefore a more uniform cropper. Early September.
GREENSBORO.
Free. White. Round. Flesh very juicy and of medium quality; skin white with red cheek. Free from rot. Late July.

HILEY. Freestone. White. A large white Peach with a beautiful red cheek; the flesh is juicy, tender, and white. The tree is a prolific bearer and the fruit ripens early, is also a valuable market sort. Bears in early July.

IRON MOUNTAIN. Free. White. Size enormous, egg-shaped; color pure white, with slight blush; good quality; good keeper; very regular bearer. October.

KRUMMEL'S OCTOBER. Free. Yellow. Enormous size; fine quality; very attractive; nearly round; dark yellow with a blush of carmine; flesh firm and of fine texture. Tree hardy and bears young. Fruit hangs long after ripe without rotting.

MOUNTAIN ROSE. Free. White. A large round Peach nearly covered with rich red; flesh slightly pink, juicy, subacid and of good flavor. Quality excellent. Early August.

Oldmixon Free. Freestone. White. Large creamy white with red cheek; flesh red at pit, tender, juicy, and of good flavor. Early September.

Buy Collins Fine Peach Trees—free from all diseases
CHERRIES

The Cherry is one of the most profitable fruits under cultivation. Enormous profits are being realized from young orchards, for they come into bearing at an early age and yield abundantly. They require the least attention of any fruit, and are ideal for the home-garden.

Commercial Planting. We recommend Early Richmond and Montmorency as sour varieties, and the Windsor as a sweet kind. Plant them 16 feet apart by 18 feet between the rows, or 150 to the acre.

Garden Culture. We recommend Montmorency, Windsor, and Governor Wood. The trees need little or no attention, and are rapid and hardy growers.

SPECIAL CHERRY TREE OFFER.
One each of Montmorency, Windsor and Governor Wood, three Cherry trees in all, for $3.25 f. o. b. Moorestown. Strong, sturdy trees, 5 to 6 ft. high.

Black Tartarian. Sweet. Fruit is purplish black, and is large and of sweet, jelly-like consistency. Tree makes a fine erect growth; produced in immense crops.

EARLY RICHMOND. Sour. Fruits soon after planted, and is an unusually heavy cropper. The most hardy of all varieties and is uninjured by the coldest winters. Fruit is medium size, round, and dark red. Flesh is tender, juicy, and subacid. Earlier than Montmorency.

GOVERNOR WOOD. Sweet. One of the best Cherries. Very large; light yellow marbled with red; juicy, rich, and delicious; tree healthy and a good bearer; fruit hangs well on the tree. Ripens the last of June.

May Duke. Sour. Large, red, juicy and rich, and is not as sour as some varieties, which makes it more in demand. June.

Gentlemen: I have received the shipment of trees and berry plants and find them all very good specimens.—B. W. H., Newark, N. J.
MONTMORENCY. Sour. Late. A beautiful large red Cherry, much larger and firmer than Early Richmond, and fully ten days later in ripening. The best for canning and preserving. It is THE sour Cherry, and the fruit is in great demand wherever grown.

Napoleon. Sweet. Tree medium size and erect. Fruit borne usually in pairs, very large and oblong; light yellow, with red cheeks where the sun strikes them; fruit solid, and red at the stone. A fine bearer.

OXHEART. Sweet. Large; light with red cheek; solid, meaty, rich and excellent. Always in demand, bringing top prices.

WINDSOR. Sweet. The tree is vigorous and hardy, and bears early. The Cherries are heart-shaped, dark purple, and the flesh is quite firm, fine in texture, and rich in flavor. Ripens early. Fruit is large and will hang on the tree a long while without rotting.

Dwarf Rock Mountain Cherry

Ideal for the home-garden. Its fruit is jet-black and medium in size. The tree grows dwarf, and is hardy. It gives much fruit at the age of two years. The plants are of bushy habit and grow from 2 to 4 feet high. $1.25 each; $11 for 10; $25 per 25.
For several years the city markets have quickly absorbed the Plum crop; in fact there has not been enough fruit to meet the demand. The planting of Plum trees has been neglected, but the orchardists are now realizing their mistake, and the more prosperous ones are setting out Plum trees. The Japanese Plums are especially vigorous growers and begin bearing very soon after planting. The Japanese trees are always inclined to over-production and, if the small fruit is thinned, the remaining specimens will be increased in size and quality.

**Commercial Planting.** We suggest Abundance and Burbank as the two most satisfactory varieties. Plant 12 feet apart and 18 feet between the rows, making 201 to the acre. The best soil is a deep, loose, gravelly loam, with an open subsoil, such as is suited to potatoes, although any soil will do, provided it is well drained.

**Garden Planting.** The same varieties as named above will do best in the garden.

Three Plum trees for $3.40 f.o.b. Moorestown. Strong vigorous trees, 5 to 7 feet high, which will bear early. Ideal for the home-garden—one each of Abundance, Burbank and German Prune. (Regular price $4.50.)

**ABUNDANCE.** Yellow. (Japan.) Medium in size; color rich yellow with dots and splashes of red, and red cheek; flesh yellow, juicy and sweet; of good quality when well-ripened. Carries well to distant markets. Fruit should be thinned. Is in great demand.

**BURBANK.** Orange-yellow. (Japan.) Medium to rather large on thinned trees, roundish conical in form; orange-yellow, overlaid with red; flesh firm, meaty, yellow, rich, sugary. From two to four weeks later than Abundance. Exceedingly productive; one of the best of the Japanese.

**GERMAN PRUNE.** Purple. (European.) Fruit oval in shape, nearly 2 inches long, of good quality; hangs well on the tree; is firm and sweet. A splendid preserving sort and excellent for dessert. Tree vigorous and very productive.

**Lombard.** Purple. (European.) Very productive; one of the best and most reliable for market. Color violet-red; medium size; juicy and good. Adheres to stone; flesh rich and tender. Hardy and adapted to light soils.
Red June. Red. (Japan.) Fruit is large, heart-shaped and slightly pointed, ripening early, just before Abundance. The flesh is light yellow, quite sweet and gives off a pleasant odor. Tree is a fast grower and not subject to disease.

Satsuma. Color, purple and red. Large globular, with a sharp point. The flesh is dark red, firm, juicy and of fine flavor. The pit is very small. Tree is a hardy and vigorous grower. August.

Shippers' Pride. Purple. (European.) Large, nearly round; juicy and sweet. Splendid shipper; tree a moderate grower, but productive.

MULBERRIES

Mulberry trees are particularly desirable for shade on account of their rapid growth. Some people prize the fruit highly for pies. The fruit is used by many farmers for feeding to chickens, and a tree planted in the chicken-yard is a valuable addition to it by reason of the dropping fruit.

Russian. Quite hardy and of rapid growth. Foliage is very handsome and the tree is decidedly ornamental. Fruit rather small. Bears very young. $1.00 each; $8.50 for 10.

Dear Sirs: Our last order for two plum and two cherry trees has arrived safely and they are in beautiful condition. I planted them the day they arrived which was on May 4th, and they are looking fresh and healthy. The asparagus plants that I got from you last year are beginning to show up quite strong now.

W. G., Portsmouth, N. H

APRICOTS. The Apricot is a fruit somewhat intermediate between the peach and plum. The tree is a round-headed, spreading grower, with dark, somewhat peach-like bark and very broad or almost circular leaves. The fruit, which generally ripens in advance of both the peach and the plum, is peach-like in shape and color, with smoother skin, rich yellow flesh, and large, flat stone. Commonly less juicy than the peach.

Early Golden. Small, pale orange, juicy and sweet. $1.25 each; $11 for 10.

Royal. Large, yellow, juicy, rich and delicious; a very fine variety. $1.25 each; $11 for 10.
Good sweet, juicy Pears, easy to raise—easy to gather—this popular fruit should be in every garden. Collins quality Pear Trees have strong root systems and well-developed tops, and will therefore soon produce fruit. Our own pear orchards contain nearly 10,000 trees, 12 x 16 feet apart (225 per acre), of Kieffer, Bartlett, LeConte, Early Harvest and Seckel. For the garden use Bartlett, Seckel, and Koonce.

**Bartlett.** Large, yellow tinged with red, buttery and melting, with a rich flavor. Tree a vigorous grower, excellent for garden or commercial planting. Bears abundantly and at about three years.

**Beurre d’Anjou.** Winter. Large, juicy, melting, and fine grain; a regular and vigorous annual bearer, eagerly sought in market.

**Clapp’s Favorite.** Summer. Large and very showy, golden yellow with red cheek, quality good. Tree a good grower and very productive.

**Duchess d’Angouleme.** Autumn. Large, melting, juicy and well-flavored, greenish yellow; tree a good grower.

**LECONTE.** Autumn. Fruit large; skin smooth, pale yellow; quality medium. Trees begin to bear when quite young.

**EARLY HARVEST.** Early. Worthy of considerable attention from the large planter because it is early. A very showy pear, good shipper bringing good prices. Fine for early canning, good bearer, good cropper, quite profitable.

**KIEFFER.** Winter. Tree remarkably vigorous and an early and very prolific bearer; one of the most profitable market pears. Much in demand by canners, exceedingly valuable for cooking and canning which brings out its best flavor. A beautiful yellow pear with bright red cheek; large size, quality medium. Tree bears at three years.

**KOONCE.** Early. Ripens its entire crop before the early harvest begins. Fine quality, large bright yellow, with crimson cheek; spicy, juicy and very sweet.

**SECKEL.** Late. Small, but of excellent flavor, fine for pickling and dessert. Very productive, yellow russet with delicious flavor, rich melting juicy, a general favorite.

**Sheldon.** Autumn. Large, round, yellow, a fine grower and productive.

**Vermont Beauty.** Summer. Hardy, resembles Seckel, larger and later.
Collins Dwarf Trees
Apple and Pear Trees at half size producing Full Size Fruit.

Collins Dwarf Apple Trees, just the thing for a small garden, because they are grafted on quince stock and always remain vigorous small trees. They are showy with their mass of bloom, and productive of much fine fruit, never growing to a great height. Plant 10 feet apart. We offer the following apples:

Wealthy, Early Harvest, Grimes Golden, Rome Beauty, Stayman's Winesap and Yellow Transparent.

Dwarf Pears. If you wish a Pear orchard and have only a little space, and if you want it to bear early, plant dwarfs. These are grafted on quince stock and never grow large, bearing early and profusely.

Ideal as a screen; quite showy in the spring. The quality and size of fruit produced is equal to that of standard trees. Plant them 10 feet apart. We offer the following:
Kieffer, Bartlett, Duchess and Clapp's Favorite.
Price of all of above Dwarf Trees $1.25 each; $10 for 10; $22.50 for 25.

COLLINS SPECIAL DWARF TREE OFFER. Seven dwarf fruit trees for $7.50, f. o. b. Moorestown. Select three of the Dwarf Pears and four of the Dwarf Apples or leave the selection to us and we will see that you have a proper succession of fine fruit.

QUINCES
The Quince is attracting a good deal of attention as a market fruit. The tree is hardy and compact and requires little space. It is productive, gives regular crops and comes into bearing early. The fruit is much sought for in canning. It will grow in any good garden soil, which should be kept mellow and well enriched. Fruit should be thinned out if it bears too freely.

Commercial Planting. Plant the trees 12 feet apart and 12 feet between the rows. This requires about 320 trees to the acre. Garden planting the same.

Champion. Hardy; prolific, bears young; fruit large, showy, yellow; delicious. Cooks as tender as an apple, and is one of the best keepers.

Orange. Large; golden yellow; good quality; profitable. Ripens late; keeps until February.

Because Nuts are very rich and have a high protein and fat content they are the most concentrated natural food known. In the Nursery, just as it is necessary to bud and graft fruit trees from the seedlings, so must nut trees be grafted and budded from seedlings to produce nuts yearly and true to type. A short piece of live wood removed from the thrifty, bearing Mother-trees, is grafted or budded on new young stock.

So we can now offer you trees that will actually bear good nuts and in quantity. The trees are hardy and are not affected by our winters. It is not uncommon for Pecans to bear the fourth year, Walnuts the third, and the Heart Nut the second year.

NUT TREES ARE JUST AS SURE AS FRUIT TREES TO BEAR.

Nut trees are ornamental, why not plant them on your lawn? They make good shade and produce a bountiful supply of wholesome nuts as well.

It is almost useless to buy Nut Trees that are not budded. They are cheaper to buy, but they seldom bear any nuts at all. Buyc Collins Grafted and Budded Nut Trees, and be sure of rich, sweet nut kernels.

PECAN. Busseron. From Indiana. One of the best Pecans and one of the most reliable. Nut large and long. The original tree in Indiana has a fine record of bearing. Kernel plump and of fine grain. $3 each, 10 for $27.

SPANISH CHESTNUT. Nut quite plump and excellent for roasting being deliciously sweet and tender. Blight resistant, bears young and very abundantly. $2.50 each.

BLACK WALNUT. Thomas. Very hardy and rugged variety. Large kernel of very fine quality. $2.75 each, 10 for $22.50.

FILBERT. English. The best Hazelnut, hardy and thrifty even if entirely neglected. Nut large and oblong. Kernel plump and of rich quality. Very productive. $2.50 each, 10 for $18.

HICKORY. Kernel sweet and delicious, tree vigorous and grows into a beautiful specimen. $3 each, 10 for $27.

ENGLISH WALNUT. Our sturdy English Walnut trees are budded and grafted on the native black walnut stock, hence they ripen their wood earlier and more thoroughly than the seedling trees do, and are therefore harder than the ordinary seedling tree frequently offered for sale.

Franquette. This is the finest Eastern variety, of English Walnut. The tree is a rapid grower and an early bearer. The nuts are large, smooth and attractive. The kernel is plump and of excellent quality. $3.25 each, 10 for $30.
Collins Blended Lawn Grass Seed

We go to the best Grass Seed producers in the United States and in Europe for their finest selections of seed to produce a good lawn. These various grasses are intelligently mixed in the proper proportions to give you a combination that will surely grow a fine green sward. The grass becomes deep rooted and is better able to withstand droughts than many cheaper mixtures.

(Sow 1 quart on a plot 10 x 10 feet or 100 square feet; 4 quarts on 600 square feet; one peck on 1500 and 1 bushel on 7000 square feet. Sow 6 to 8 bushels per acre to give a thick sod from the start.)

*(Occasional applications of Sheep Manure through the growing months give color and strength to the new lawn, see page 46.)*

1000. Collins Evergreen Lawn Grass. This is an excellent mixture for new ground and for renovating old Lawns. It consists of a carefully blended combination of the best short-growing, fine-bladed grasses, selected from foreign and native stocks. It will produce a permanent sod in a few weeks. It contains a small amount of White Dutch Clover which adds greatly to the appearance of the turf. Blended from varieties that are deep-rooted and best adapted to the various climatic conditions of America. Postpaid, 1 quart 35c. By express or freight, 1 quart 30c; 2 quarts 55c; 4 quarts $1.00; 1 peck $1.75; 1 bushel (20 pounds) $6.50; 100 pounds or more 30c per pound.

1001. Collins Shady Lawn Grass. This contains a proper blending of varieties of grasses that grow well in shady places. This mixture of seeds produces perfect swards in most densely shaded places where other seeds fail. Postpaid, 1 quart 40c. By express or freight, 1 quart 35c; 2 quarts 65c; 4 quarts $1.25; 1 peck $2.25; 1 bushel (20 lbs.) $8.00; 100 pounds or more 37½c per pound.

1002. Collins Seashore Lawn Grass. This mixture is composed of those varieties of grass that will thrive in salt air regions, producing a good sod in a few weeks, even at the shore. Postpaid, 1 quart 40c. By express or freight, 1 quart 35c; 2 quarts 65c; 4 quarts $1.25; 1 peck $2.25; 1 bushel (20 lbs.) $8.00; 100 pounds or more 37½c per pound.

*SOW COLLINS LAWN GRASS SEED AND HAVE A LUXURIANT GREEN TURF.*
Collins Highest-Grade Fertilizers

Collins Wizard Brand Sheep Manure Pulverized. "A whole wagon load of rich manure compressed into a bag." This is a splendid, concentrated manure taken from covered pens where sheep are fattened on grain and is then dried, ground to an even fineness, and packed in bags for convenient use. This drying process kills all the lurking weed seeds, making it an exceedingly pure manure and clean to handle. It is exceedingly rich in nitrogen, phosphoric acid and potash, three very essential, enriching ingredients for any soil, and very important to the growing plants. Use it freely on your evergreen bed and on flower beds and for roses. No plants, will grow without plant food, and whether the soil is rich or poor, it should have a generous application of this manure if strong, healthy plant life is expected. Easy to handle, clean and efficient; on lawns use ten pounds to each one hundred square feet. Price per 100 lb. bag, $3.50.

Collins Bone Meal. Made of pure, raw bone without any addition of outside materials. This is an ideal fertilizer for rose beds and for greenhouse work. Use this fertilizer for all purposes; safe and effective. 10 lbs., 60 cts.; 25 lbs., $1.40; 50 lbs., $2.50.

Collins Pleasant Valley Plant Food. A lover of roses and plants who lives in Moorestown has always had such marvelous flower gardens and such a beautiful lawn that we were convinced he was getting his results from some secret method. We investigated and found he used a fertilizer or plant food discovered by himself which was working wonders for indoor plants, evergreens, roses, lawns, etc. It makes plants much greener and healthier, and the bright flowers last longer when cut. It contains 3% potash, 67% phosphoric acid and 24.5% nitrogen. It drives ants and earth worms away too. He will not disclose the formula, but we have finally induced him to make his product in larger quantities in order to supply our customers. Therefore, we can now offer his wonderful Plant Food which we can heartily recommend. Use this freely and have more beautiful flowers. 1 lb. carton, 35 cts. postpaid; 4-lb. carton, $1.00 by express; 10-lb. carton, $2.25 by express.

Collins Garden Loam. Excellent, rich garden earth secured from well-fertilized plots, put up in sacks containing 2 to 3 bushels; extensively used at seashore points. Price per sack, $1.00; special price on larger quantities or by truck-load.

COLLINS LIST OF HELPFUL BOOKS

Carefully selected books each of which is most helpful and instructive in the subject with which it deals. The authors are authorities on their subjects; all are well illustrated.

The American Peach Orchard. By F. A. Waugh. Cloth, $1.75.
Plums and Plum Culture. By Prof. F. A. Waugh. Cloth, $2.50.
The Nut Culturist. By Andrew S. Fuller. Cloth, $2.00.
Small Fruit Culturist. By Andrew S. Fuller. Illustrated. Cloth, $1.60.
Strawberry Culturist. By Andrew S. Fuller. Illustrated. Cloth, 40 cts.
Principles and Practice of Pruning. By M. G. Kains. Cloth, $2.50.
American Fruit Culturist. By J. J. Thomas. $3.50.

Plant Grape Vines NOW

Pick your own fresh grapes—for grape juice, jelly or table use—right from your own vines. Even the smallest property has room for 4 grape vines—use your fence or the side of the house. Collins Grape Vines are grown to bear great crops. We send them out ready to work for you.

4 Sturdy 2-Year-Old GRAPE VINES $1 Postpaid to your door

Will bear the first year

Your selection of any of these leading varieties, choose four vines:

Concord (blue)  Niagara (white)  Catawba (red)

Prices of larger quantities, by express; see pages 30 and 31.

Dear Sir:  

Please send me your price list of nursery stock, especially grapes. I want several varieties as a neighbor, Miss ______________ got some grape vines from you and praised them so highly that I want some of the same quality myself. She said they were the finest, largest grape vines she ever saw.

Terms, Conditions of Sales, Etc.

The prices contained in this catalogue abrogate all other prices that have been previously published or quoted, and, except where noted, 5 will be sold at the 10 rate, 50 at the 100 rate, 500 at the 1,000 rate.

Terms Cash. Our terms are cash with order. As an inducement to send cash, we give you the benefit of the low prices named in this catalogue. Remittances may be made by Post-Office Order on Moorestown, N. J., or by Check or Draft on New York or Philadelphia, made payable to our order, or by Registered Letter. We are unable to furnish trees and plants by mail or parcel post except where noted within.

Substitution. It is our custom, should the supply of a variety be exhausted, to substitute in its place another, similar or better, correctly labeled. If it is desired that we shall not do this, affix to the order the words "no substitute."

Guarantee and Conditions of Sales. Purchasers are hereby notified that although we shall continue to take all possible care to supply good, healthy, thriving trees, shrubs and plants true to name, and hold ourselves in readiness to replace, on proper proof, all stock that may prove untrue to name or refund the amount paid, we do not give any other warranty, express or implied, with respect to the goods we send out, and shall in no way be responsible for other defects or loss of crops. Every order received for articles named in this catalogue will be received and executed on the above conditions only, and with the distinct understanding and agreement on the part of the purchaser that we shall in no case be liable for a greater amount than the sum originally paid to us for the stock in question. Claims, if any, must be made upon receipt of goods, or they will not be allowed.

Name and Address. Always write your name plainly upon order sheet in the catalogue. A lady should always sign herself Miss or Mrs., and always use the same initials.

Write Your Name and Address Plainly. Always give shipping directions, whether by freight or express, and name of freight or express office. If directions are not given, we shall use our own judgment.

Shipping and Business Facilities. Being within easy freighting distance of New York and Philadelphia, boxes or barrels of plants can be delivered to any of the main through freight lines or steamship companies in those cities at very little expense. During cold fall weather or in early spring, heavy boxes of trees and plants can be sent long distances by the fast freight or other freight lines. The express company here is of service for lighter packages.
Fill out fully and with care.

(Cover)
We shall gladly send our catalog to your friends who would appreciate it. Write names and addresses of these possible customers above, please.
From Virginia to Oregon, from the Canal Zone to South Dakota, they praise Collins “Faultless Five” Roses

Gentlemen: Nov. 30, 1923.

I herewith send you a report of the five rose bushes I received from you May 12, 1923:

June 20th to July 14th. Aug. 14th to Sept. 1st. Oct. 7th to Nov. 14th.

Ophelia 16 14 14 14
Premier 16 14 14 14
Columbia 14 14 14 14
Db. W. Kill. 8 or 9 9 8 8
Maryland 5 6 5 4

The Ophelia blooms opened out over 3½ inches across. I must tell you again that I am very much satisfied and pleased and thank you for sending me such good bushes.—A.D., Newark, N. J.

Dear Sirs: May 16, 1923.

Roses arrived in perfect condition, they certainly looked like extra fine plants.

Mrs. J. C., Goodridge, Zacata, Va.

Dear Sirs: Sept. 5, 1923.

I want to thank you for the prize check of $25 which came to me, as winner of the rose collection contest, a pleasant surprise. Needless to say, it was much appreciated.

“Collins Faultless Five,” which I set out about June 1st have made a fine growth, all having bloomed.—Mrs. B. B. O., Wallowa, Ore.

Dear Sirs: May 7, 1923.

This is the second year I have taken advantage of your offer and as before I am more than pleased. In fact, they excel roses that I have paid three times as much for. Some of my friends would like me to try to get them for them, so hope I am not too late.

Mrs. D. H. K., Hanover, Pa.

Gentlemen: June 29, 1923.

Early in the spring I ordered the five rose bushes you advertised and they are all growing and are wonderful values.

Mrs. M. L. R., Redfield, So. Dak.

Dear Sirs: May 11, 1923.

We received the plants all in good order. They were inspected by some of the experts here. They advised us they were the best plants that they had seen in a long time. Should we need anything in your line later on, we will remember you.—W. L. E., Memphis, Tenn.

Dear Sirs: May 15, 1923.

Received my five rose bushes in good condition and was more than pleased. I received them on Wednesday, put them in water for a day, then planted them. After two days the Columbia bush had a bud on it. My neighbors were as pleased as I was, and one has sent for five. Will certainly recommend you to my friends.—Mrs. J. L. E., Pedro Miguel, C. Z.

These few testimonials, among thousands in our files, have been voluntarily sent in to us by enthusiastic customers.
